## DEMOCRATS LAYING PLANS TO ENTRAP REPUBLICANS

Held a Powwow at City Hall and Seemed to Think They Could Do It.

## HOPEFUL AND ORATORICAL

Fourteen of the Unterrified Met Last Night and Aired Their Scheme.

## HOW TO GET SUPPORTERS

The Problem That Seemed to Worry Most And Which Is Not Yet Solved Speeches Galore Were Made—One Man's Four Orations.

Nothing definite was done at the meeting last night at the city hall by the Democratic central committee, though there were all kinds of calculating as to the intentions of the party regarding the placing of a municipal ticket in the field. Nobody told where the votes were to come from to elect the ticket after it was nominated, but everybody "had hopes." The meeting was decidedly long on hope.

While the attendance was not large—only 14 of the faithful being present—those who were there were unanimous in the opinion that it would be policy to institute a new party and nominate candidates on what is to be known as the citizens' ticket in opposition to the candidates on the Republican ticket.

The meeting was called to order with Ed Cook in the chair and F. P. Williams secretary. Before much progress had been made Mr. Cook had Martin Elliott take his place as chairman so that he could express some of sentiments he had up his sleeve which he thought would be beneficial.

Several times did Mr. Cook address the meeting. He heartily favored the placing of a citizens' ticket in the field and expressed the belief that there were enough "sore" Republicans who would vote for the candidates on the new ticket to elect them.

In one of his speeches Mr. Cook took occasion to jump onto some of the members of the city council. He laid great stress on some of the improvements, which, he said, had been made at needless expense, which he termed as being "outrages." "The people are tired of this kind of business," declared the speaker, "and are looking for a chance to retaliate."

It was on this strain that all arguments in favor of the citizens' ticket hinged. Every one of the speakers thought there were enough disgruntled Republicans to boost the new ticket along, though the fact was brought out repeatedly that it should not be forgotten that the Democratic party was the foster father of the new organization.

Walter Cook made a forceful plea, exhorting at great length on the possible disaster that would result to the Republican party in case it was lost in recognition in a scrimmage to get votes on the citizens' ticket.

Dr. George Ikert made two or three speeches. He thought the citizens' ticket could do business, but admonished his Democratic brethren not to forget that they were Democrats. Jake Weisend made four speeches. He also thought the citizens' ticket could so be brought before the public that politics would undergo needed renovation.

Enthusiasm grew with each utterance favoring the new ticket, and when Ed Cook made his last speech his eloquence fairly dazzled his hearers. J. C. Walsh was present and wanted to make a speech, but when he heard Cook's last effort he thought there was nothing left for him to say and kept quiet.

Various motions were made with various amendments. The secretary finally lumped his notes together and worked out something which read that the citizens' ticket was the real thing and no mistake. Another motion was finally made calling for a mass meeting of citizens on next Friday night.

This was agreed to without a dissenting vote, but one matter that seemed to puzzle the faithful brethren was how to get sufficient interest worked up to insure a good attendance at the meeting. No one seemed to be able to throw light on the proposition, but somebody finally sug-

gested that everybody "whoop'er up," which was considered as being wise, indeed.

With the avowed intention of doing everything possible to induce a large attendance at Friday night's meeting the motion to adjourn was carried.

It is the purpose to nominate a full ticket if candidates can be induced to make the race.

### Another Deaconess.

The Home Missionary society of the M. E. church has decided to secure another deaconess in place of Miss McDowell, who by reason of the illness of her mother will be unable to return to her duties here. The new deaconess cannot arrive before the 1st of May.

### Treasury Well Filled.

Lisbon, March 11.—(Special)—Conrad Hume and Willis Jordan have filed with the probate judge the report of their examination of the county treasury. They found in the treasury \$64,400.

### DIED SUDDENLY

#### OLD SOLDIER PASSED AWAY AT HIS EAST END HOME.

Had Been Ill But Was Feeling Better Until Heart Disease Seized Him.

Herman Ecke, aged 53 years, died very suddenly at his home, corner Mulberry and Railroad street, East End, at 12:30 o'clock today. Mr. Ecke had been in the employ of the flint mill for several years and the cause of death was heart disease, induced by the dread "flint consumption."

He had been ailing for some time, but was feeling much better until a few minutes before death occurred. He called for some medicine, lay down and quickly expired. He leaves a wife and two daughters, one of whom is a resident of the East End, Pittsburgh. She has been notified and is expected to arrive tonight.

Mr. Ecke was a member of the G. A. R. post No. 41, of Pittsburgh, and will likely be buried with military honors.

### CROKER ROBBED

#### WELLSVILLE MAN LOSES HEAVILY BY THIEVES' VISIT.

Cyrus Powell Robbed While He Slept of Watch, Revolver And \$103.

Cyrus Powell, a grocer at Thirteenth and Commerce street, Wellsville, who lives over his store, last night was robbed of a pocketbook containing \$103 and also of a watch and a revolver. The articles were taken from his clothes while he slept.

The burglars, two in number, not being satisfied, were feeling under Mr. Powell's pillow when he awoke and tried to grapple with them. They got away and the police are hunting them.

### AMALGAMATED DELEGATE

George D. Evans Will Represent Lisbon Lodge at Wheeling Meeting.

Lisbon, March 11.—(Special)—George Drayton Evans has been chosen by the local lodge of the Amalgamated Association as representative to the national convention at Wheeling. Evans has twice before been a delegate to national conventions. He is an acknowledged leader in the association.

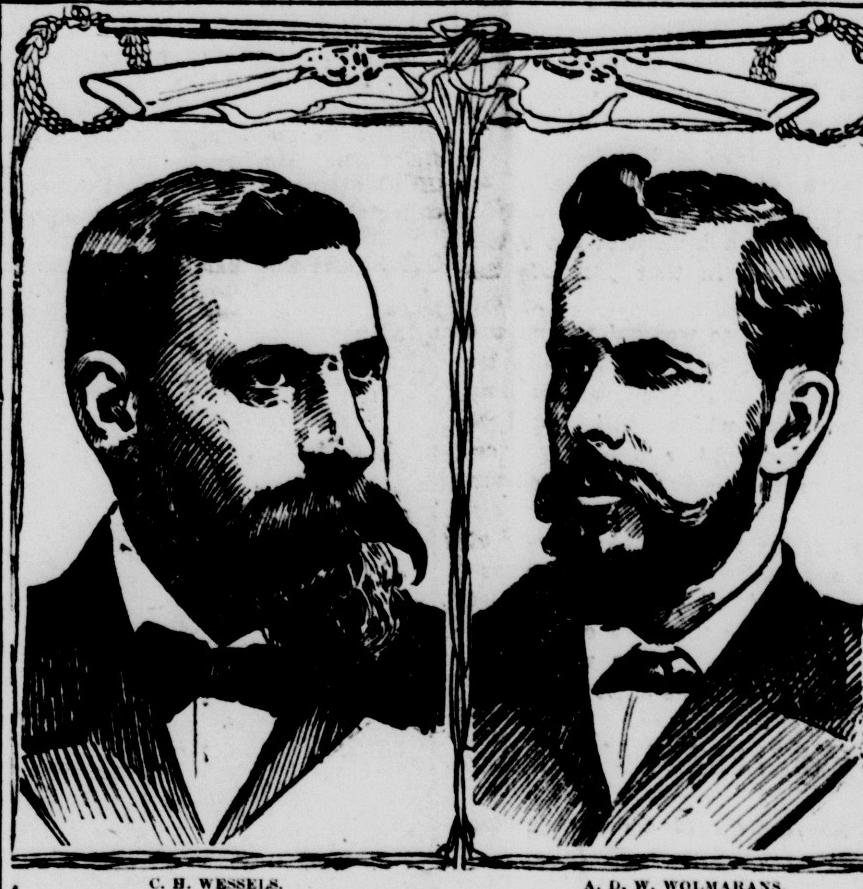

As district organizer he played an important part in the organization at Wellsville last summer.

### HEAVY FALL OF ROCK

#### Came Down Near Street Railway Cars Have So Far Escaped.

Several slips have occurred along the street railway between this city and Wellsville, but fortunately the fall has been at points where traffic on the East Liverpool line was not interfered with.

A huge mass of rock fell at the Brady hollow last evening and alighted not far from the street railway tracks. At other points a number of large slips have occurred, and it is feared banks in close proximity to the railway may come down if the thaw continues.

C. H. WESSELS. A. D. W. WOLMARANS.

### VISIT OF THE BOER ENVOYS TO THE UNITED STATES.

Considerable significance attaches to the second visit to this country of Messrs. Wessels and Wolmarans, the Boer envoys. They come ostensibly for the purpose of making arrangements for the judicious and economical distribution of the Boer fund contributed by persons in the United States, but it is said that they really believe Uncle Sam may interfere to stop the war in South Africa.

## FINE WARE BROKEN IN FREIGHT WRECK

### Train Broke In Two and One Part of It Crashed Into the Other.

## PARENTS FEAR AN INSANE SON

### Hanoverton Lad Alleged to Have Developed a Dangerous Mania.

## CARS IN KINDLING WOOD WANTS TO KILL HIS MOTHER

### Three of Them Containing Shipments From Local Potteries Were Ruined With Their Contents—A Bad Accident Near Toronto.

A costly freight wreck occurred on the C. & P. at Toronto at 3 o'clock Sunday morning in which three cars loaded with fine china ware from East Liverpool and Wellsville potteries were badly smashed up and the ware broken.

The wreck occurred on the main line directly opposite the ice plant above Toronto and was caused by the train breaking in two and crashing together when the first section was stopped. The train was running extra as No. 699. Soon after leaving Yellow Creek a coupling broke. The train was stopped and coupled up and when pulling into Toronto it broke a second time.

Through some mistake in signalling the engineer stopped the first section when the rear section crashed into it and three cars were converted into kindling wood and the contents broken and scattered along the tracks. The main line was blocked for several hours and it was late in the afternoon before the wreck was entirely cleared away.

Most of the ware broken was being shipped to western and southern points. The accident attracted a large crowd and hundreds of broken pitchers and dishes were picked up and carried off. All the unbroken ware was gathered up by the railroad people and sent back to Wellsville.

### HEAD BADLY BRUISED

#### Farmer Seized With Heart Disease Fell in Front of Court House.

Lisbon, March 11.—(Special)—Florance Sherrow, a farmer of Hanover township, who operates a saw mill on his land, was seized suddenly with heart trouble while at the sheriff's sale here yesterday afternoon.

Without a word or a sound he fell backward on the flagstones in front of the court house. He was conscious and seemingly over the attack by the time those beside him could pick him up. His head was badly bruised, but he was able to go home.

### Licensed to Marry.

Lisbon, March 11.—(Special)—A marriage license has been granted to Joseph Lipp and Anna Della Kibler, Unity township.

Milton Rinehart, Steubenville, and Martha Kehler, Wellsville.

### Uniform Rank Installation.

Inspection and installation of officers will be held by the Uniform Kank, K. of P., tomorrow evening. Two applicants will be initiated. The work will be in charge of Captain Seleh, of Steubenville.

## A DOUBLE TRACK RAILROAD ON THE ROCK SPRINGS LINE

tate belonging to his ward. Judge Moore is appointed guardian for the suit.

### SHERIFF'S SALE

Farm of 80 Acres Brought \$667—No Bids for a Bowling Alley.

Lisbon, March 11.—(Special)—As a result of the suit of Leonard H. Truick against Levi Ward, 80 acres of land in Elkhorn township were sold by the sheriff yesterday. Emmor Halverstadt purchased the land for \$667, which was 33 cents more than the required two-thirds of the appraised value.

The sheriff also offered for sale the Palace bowling alley in Lisbon. Fearing, perhaps, that hot weather will discourage bowling, no one made a bid. The sale will be advertised again. The suit which brought about the sale is that of Chamberlain, who built the building, against S. J. Todd, one of the proprietors.

### SHOWED A BAD FACE

#### VICTIM OF STRONG DRINK BADLY WORSTED IN A FIGHT.

Terribly Disfigured When Before the Mayor—Three Fighters Fined.

Two victims of strong drink were taken into the police fold last night. One was Ben Lloyd, who was found in the Diamond by Officer Sallsherry. He was unable to navigate and was placed in jail for safe keeping.

When taken before the mayor this morning Lloyd's face was so terribly disfigured that his honor was fairly startled. While on a spree Sunday night Lloyd got into a fight and came out second best. Both of his eyes were almost swollen shut and so highly colored they looked like a basketful of Easter eggs. He had no money and was discharged.

Ed Garrison was arrested for drunkenness by Patrolman Bryan. He was fined \$1 and costs, which he paid.

Three fighters who were arrested Sunday night appeared before the mayor last night. All pleaded guilty and paid a fine of \$2 and costs each.

### LISBON CITY HALL

#### Citizens to Vote on Bonding the City \$15,000 to Erect It.

Lisbon, March 11.—(Special)—At an adjourned meeting of the city council last evening it was decided to submit the proposition for a new city hall to the voters on April 7, the day set for the spring election.

The plan discussed at present is to bond the city for \$15,000, this sum to be used for site and building. The alley at the northeast corner of the square running past the present council chamber and village lockup is to be widened by the addition of 24 feet on the west side into a street. The property owners on that side of the alley offer to give 24 feet off the east end of their lots if the council establishes the street. A site for the hall is offered on the east side of the alley for \$2,500 and the council has an option on it.

### STRIKE SETTLED

#### Miners' Difficulty at Negley Adjusted After Many Months.

Columbus, March 11.—(Special)—President Haskins and Secretary Savage, of the United Mine Workers, returned from Columbiana county on Monday and reported that the strike of the miners at Negley, which has been on since last April, has been settled.

The trouble was caused by a disagreement over pay for entry work.

### Garbage Collection.

The committee of council having in charge the garbage question today ordered the Sanitary Reduction company to continue its work until tonight, when it is thought council will take some definite action. The original order was to stop the work last night.

### Arrested Two Suspects.

Dressed as a tramp, Detective Thomas Gibbon, of the Pennsylvania company, accomplished the arrest at Garfield and Sebring of Tom Britton and Bill Burt, who are suspected of robbing freight cars at Garfield. The men will have a hearing at Sebring today.

Only One of Many Improvements Promised For the Coming Summer.

### NEW CARS ARE ORDERED

Car Barns to Be Enlarged to Accommodate Growing Business.

### VARIOUS SAFETY APPLIANCES

And Other First-Class Equipments Are Promised—All Night Cars to East Liverpool a Possibility in the Near Future.

Feeling that the present will be the greatest picnic season in the history of Rock Springs park, Charles A. Smith, who believes in doing nothing by halves, has placed an order for three new summer cars, similar to those in use on his road last season and an additional order for three winter cars, to be delivered early next fall. Besides all this, other improvements will be made on the Chester line which will make it second to none in this section of the state, and not equalled between Pittsburg and Cleveland.

And this is not all. Definite conclusions have been reached whereby the road is to be double tracked from the West Virginia end of the East Liverpool and Chester bridge to the switch at the park. The rails for this purpose have been ordered. Over two miles of rails will be required, the combined weight of which will be over 200 tons. These rails will be the standard seven-inch rail and manufactured by the Cambria Steel company, Johnstown, Pa.

There will be a new trolley wire used, known to electricians as "00," which is almost twice as heavy as the wire now used by any company in the city. A complete outfit of overhead equipment has also been ordered, and as soon as the weather opens the wire will be strung and the rails laid. The condition of the iron market at present is such that it is almost impossible to tell when these rails will be shipped, but the company expects to commence rebuilding the road within the next 30 days.

Provision will also be made for the keeping of the new cars upon their arrival. Arrangements are about to be made to increase the size of the barn, at the corner of Carolina avenue and Ninth street, and it is likely that an addition of 100 feet will be built to the building. With the new rolling stock, the company within a year from now will have 21 cars, quite a large number for so small a road, but the growing business must be taken care of. The new cars will have electric signal bells. The hard coal stoves in all the winter cars will be discarded and electric heaters installed.

Another improvement the management will make is the introduction in this city for the first time of electric brakes, similar to those used on the cars operated by the Pittsburg Railways company. These brakes reduce the chances of accident to a minimum. Two of these controllers have been ordered and upon their arrival will be placed on two of the cars at once, in order that all the motormen can become accustomed to them before they are placed on the entire set of summer cars. These are styled as the Newell magnetic power brake and are quite costly.

Seven sets of McGuire trucks have been ordered and some of the present trucks in use will be replaced by the new equipment. When all these changes are completed the company will operate an eight to ten minute schedule from the Diamond to Chester. It is also the purpose of the company to operate "all night" cars, when this will be done had not been definitely decided.

It was the intention of the company to relay the rails on the bridge, but when the order was placed for these rails it was found they could not be delivered before next October. The tracks, however, will be greatly improved, and no expense will be spared to make the line a modern one in every particular.

# FROM THE LAND OF SUNSHINE

A Breezy Letter Telling of the Beauties of Southern California.

## LOCAL PEOPLE OUT THERE

Find Much Enjoyment, Though the Rainy Season Does Not Suit All, Pleasant Transition From Winter Cold to a Floral Paradise.

### Special Correspondence.

Los Angeles, Cal., March 6.—The popular belief that the railroad companies of the country have syndicated on the employment of one Ananias to write the Southern California literature for their advertising departments is a mistaken one. The samples of sunshine flooding my desk, the gently dipping palm just outside the window trying to commune with the rose vine which clammers up the side of the house and the flowers of all kinds and colors filling the air with sweetest fragrance—these show that the man who can justly describe the beauties of this country has not been found. If I could only bring the orange groves, or one of them, from Alhambra or Pasadena or even from the suburbs of Los Angeles, to East Liverpool back doors, I think I would be tempted, however, to take the contract of telling the story as it should be told. Perhaps that egotistical but—blame it on the climate.

Looking back to the time I left East Liverpool I find that nearly three months have elapsed. It does not seem more than a few days, so, I take it, that is a fairly good indication that I have been having a fairly good time, thanks. Stopping off in Chicago and Kansas City was like stepping from a steam room into an ice house. The cars were too hot and the streets—well, to prove I'm not chronic kickin', the temperature was about 15 below zero there. But that's so long ago I had nearly forgotten it. A month in Denver, during which time I worried the public through the medium of the Denver Post, was a good deal like getting a taste of jam and waiting until the footsteps at the pantry door had died away so the crock could be finished up. It's a long jump from Denver to Colorado, but it's worth taking. Six weeks here have convinced me of that, as the few previous remarks I have made may indicate. One knows he's living when he passes through this rightly named "Gateway of Southern California."

The News Review printed a part of my correspondence to the Cleveland Plain Dealer not long ago, so I won't tell you any more about the East Liverpool people here, except the visitors. Joseph G. Lee, Mrs. Lee and Miss Anna Lee, I. W. Knowles, T. M. Bennett and Mrs. Bennett and Mrs. R. E. Baxter are among those I have met lately. Mrs. Baxter arrived only a few days ago and is staying with Mrs. T. W. Sargent of 1627 Scott avenue. It had been raining for five days before she arrived and it has rained two days since, but the people here wouldn't care if it rained forty days and nights and the ark builders' union was on a strike. Not much in a country where they have to irrigate. Mrs. Baxter was disgusted with the rain, however, and when I last saw her she had about made up her mind to go on to Frisco and Baywood. The other East Liverpool people are lingering in the best part of the state, though, and that is right here.

It is nice to be remembered by one's friends, and so it was with feelings of joy that I ran through the contents of a box sent me by my old associates in Cleveland. I have not yet been able to fully express my thanks, but hope to through the medium of the Los Angeles Herald, on which I am employed.

#### ELECTRIC DENTISTRY

The Pittsburg Dental Parlors, situated in the Diamond, owned and managed by Dr. J. M. Little, is one of the most complete dental offices of the day. He has fitted his office with the latest electric appliances which enable him with his skilled hand to do the work with considerably less pain to the patient, as well as with more rapidity, which the people at this advanced age demand. The Electric Engine, which all people dread, is one of wonderful pain-saving—saving both in drilling and grinding the teeth. The Electric Water Heater is of great importance also, having at arm's reach tepid or hot water in an instant. The Electric Fans which will be a treat to the doctor as well add to the comfort of his patients. The Fountain Spray spout connected to the chair not only has the crystal glass bowl and sparkling water constantly flowing but has in connection, the Saliva Ejector which carries the saliva from the mouth, permitting the patient to rest in ease, while heretofore it would be constantly running down the throat and causing all the inconvenience imaginable. His office will be lighted with electricity throughout, making everything pleasing to the eye.

Dr. Little's methods in dentistry have won him a very large practice, giving the quickest, easiest and most lasting results, and his efforts to advance will even more be appreciated by all who come to his office, which is opened evenings, for the benefit of those who cannot come during the day.

#### Woman's Curiosity.

As good an instance of New York wit as can be found is told about the staff of the Roosevelt hospital. A dangerous operation was being performed upon a woman. Old Dr. A., a quaint German, full of kindly wit and professional enthusiasm, had several younger doctors with him. One of them was administering the ether. He became so interested in the old doctor's work that he withdrew the cone from the patient's nostrils, and she half roused and rose to a sitting posture, looking with wild-eyed amazement over the surroundings. It was a critical period, and Dr. A. did not want to be interrupted.

"Lay down, dear, woman," he commanded gruffly. "You have more curiosity as a medical student."

She lay down, and the operation went on.

#### The Cobra of India.

Among the true cobras of India the naja is found all over India and Ceylon, Burma, the Andaman Islands, southern China and the Malay peninsula and archipelago. It ascends the Himalayas to an altitude of 8,000 feet. It extends also over Afghanistan and through Persia to the eastern shore of the Caspian. It may attain a length of nearly seven and a half feet, but it is usually not more than a little over five and a half feet long. Naja vary much in color and markings, but have generally the spectacle mark on the back of the neck, which they always distend before making an attack.—Quarterly Review.

Contractors Said to Be Ready for Work on Chester Branch Extension.

M. J. Kerr, of the firm of Kerr Bros., of the East End, went to Shippingport yesterday to ascertain just what work was being done on the proposed extension of the Cumberland branch from Chester to Monaca. It has been announced that the contract for the grading of this end of the extension has been let to McNauly Bros., of Pittsburg, the same firm which built the extension from Kenilworth to upper Chester. The price per yard has not been ascertained.

While the contract for the eastern end of the extension is also said to have been let some time ago, the name of this contractor has not been learned. The grading is expected to begin as soon as the weather opens.

### Special Correspondence.

Los Angeles, Cal., March 6.—The popular belief that the railroad companies of the country have syndicated on the employment of one Ananias to write the Southern California literature for their advertising departments is a mistaken one. The samples of sunshine flooding my desk, the gently dipping palm just outside the window trying to commune with the rose vine which clammers up the side of the house and the flowers of all kinds and colors filling the air with sweetest fragrance—these show that the man who can justly describe the beauties of this country has not been found. If I could only bring the orange groves, or one of them, from Ahambra or Pasadena or even from the suburbs of Los Angeles, to East Liverpool back doors, I think I would be tempted, however, to take the contract of telling the story as it should be told. Perhaps that egotistical but—blame it on the climate.

Looking back to the time I left East Liverpool I find that nearly three months have elapsed. It does not seem more than a few days, so, I take it, that is a fairly good indication that I have been having a fairly good time, thanks. Stopping off in Chicago and Kansas City was like stepping from a steam room into an ice house. The cars were too hot and the streets—well, to prove I'm not a chronic kicker, the temperature was about 15 below zero there. But that's so long ago I had nearly forgotten it. **PRINCE SAILS TODAY.**

Last Night He Attended a Theater--Dined His Hosts Early In Evening.

**VISIT MADE TO PHILADELPHIA.**

The Party Were There Yesterday. Taken to Independence Hall--Made Inspection of Cramp's Ship Yard. Guest at Luncheon.

New York, March 11.—Prince Henry and his party arrived from Philadelphia at 5:25 p.m. yesterday and were taken on the navy yard tug John Bowers to Hoboken, whence they were escorted to the steamer Deutschland, on which the prince is to sail for Europe today. On the steamer the prince gave a dinner to those who had been his hosts while in New York.

About 9 o'clock the party again boarded the John Bowers for New York and were driven to the Irving Place theater, where they witnessed a performance and later returned to the ship.

Philadelphia, March 11.—Prince Henry, of Prussia, finished his American tour in this city yesterday, and for the brief space of five hours was the guest of this municipality. His reception was most cordial and his welcome heartfelt.

Mayor Asbridge extended the freedom of the city to the royal visitor and presented the prince a handsome album containing his address of welcome beautifully engrossed.

Prince Henry made a brief response.

Previous to Prince Henry's departure from the city hall he was presented with an engrossed address of welcome by a committee representing the Central League of the Pennsylvania State League of Veterans and Soldiers of the German Army.

**Cheered By the People.**

The streets through which the prince passed from the municipal building to Independence hall were thronged with cheering people and the right hand of the royal guest was kept constantly in motion acknowledging the welcoming ovations. On the wide plaza in front of the historic old structure stands a statue of George Washington. A roar of applause greeted the action of his royal highness when he, on alighting, gracefully uncovered before the statue.

Accompanied by Admiral Evans and Mayor Asbridge, the prince entered the building and proceeded to the assembly room. He was informed that it was in this room the declaration of independence was signed, and he displayed much interest in the colonial and revolutionary relics exhibited in the adjoining room. The prince was presented with an illustrated album containing a history of the independence of the United States.

In the bond market the feature was the buying of Mexican Central first incomes and Standard Rope and Twine 6s. Otherwise the market was quiet and irregular. Total sales, par value, \$3,835,000.

United States bonds were all unchanged on call.

**The Quickest Cough Eradicator.** (From the Shortsville, N. Y., Enterprise.)

This is the month that one takes cold so easily and quickly—secures that hacking cough, which is so persistently disagreeable as we know by personal experience. And we also know that the quickest eradicator of such cough has been Chamberlain's Cough Remedy, and which has been our staunch standby for several years.

This is no paid "puff," but merely a just recognition for an invariable remedy for for coughs, colds, and all lung affections, and like the editor, it has scores of other staunch friends in this town. This remedy is for sale by Alvin H. Bulger.

**Speech of the Prince.**

"I wish to thank you for the kind reception I met with in the Union League. Gentlemen, this is probably the last opportunity I will have during my visit to the United States to speak in public, and I am not sorry that this should be so. What I am going to communicate to you here I am saying before the world. There has been absolutely no secret object in view connected with my mission to your country. Should any of you read or hear anything to the contrary I authorize you herewith to flatly contradict it. I was told before leaving my home to open my eyes, as well as my ears, as wide as possible, to speak as little as I could. In this latter instance I am afraid my mission is a failure. I saw many more things than many of you are aware of. I equally heard a great many things among others many kind words of individuals, as well as the shouts of welcome of thousands of your countrymen. What I express in your presence I express in the presence of your nation—my heartfelt thanks for the cordial reception and good feeling I met with during my stay in your country. It will be my duty to inform his majesty, the emperor, of this fact. I am homeward bound tomorrow. **Industrial Concentration and Its Benefits**

By MARTIN A. KNAPP, Chairman of the Interstate Commerce Commission

UP TO THIS TIME I SEE NO REASON WHY THE PRESENT PROSPERITY MAY NOT CONTINUE INDEFINITELY. This belief I hold mainly because of the dominant place of the United States in the production and commerce of the world.

Our ability to undersell competitors in foreign markets should increase our export trade, and will do so, in my judgment, if other nations are sufficiently prosperous to maintain and enlarge their purchasing power.

ON THE WHOLE, I BELIEVE THAT THE CONCENTRATION OF INDUSTRIES, PERMITTING THE GREATER ECONOMIES OF ASSOCIATION, WILL CONSERVE AND STRENGTHEN THE FINANCIAL BASIS OF OUR DEVELOPMENT.

I expect better returns to the farmer than now, not so much, if at all, from higher prices as from more profitable results of improved and less expensive methods of cultivation.

I predict that the selling prices of merchandise and manufactured articles generally will materially decline because the supply of goods produced at low cost will increase relatively faster in the next few years than the consuming demand both at home and abroad.

the northeastern section of the city was one continuous ovation for the prince and his party.

**Enjoyed Visit To Cramp's.**

The prince overstayed his time. In taking his leave of Mr. Cramp, who escorted him through the yard, the prince said: "I could stay here all night."

The prince was first taken into the department where marine engines are built, and from there he was escorted to the battleship Maine, which was launched last summer. He did not go aboard, but gave her a critical inspection from the dock. Mr. Cramp then took the prince to the Russian battleship Retzian. Prince Henry and his suite was received at the gangway by Captain Stenbock, the commander of the Retzian and his staff, who were in full uniform.

After the cordial greetings were over, the sailors, who were still standing at attention, gave the prince a Russian cheer, wishing him health and a profitable journey, to which he replied in Russian: "Good morning, fellows."

This pleased the Russian officers and men immensely. Captain Stenbock then took his royal guest in hand and, accompanied by the prince's two aides, made a thorough inspection of the ship. As the German admiral walked down the gangway of the entire ship's company, led by Baron Fersen, naval attache of the Russian embassy at Washington, gave three cheers for "Prince Henry, of Prussia."

The prince by this time was growing enthusiastic over what he was seeing. He made a rapid inspection of the big armored cruisers Colorado and Pennsylvania, which are still on the stocks, the Kroonland and Finland, the largest merchant vessels ever built in this country, and the Turkish cruiser, which has not yet been given a name.

Having seen all the ships in the yard, his royal highness was then shown through the various departments in which the material for vessels is made and of all these the machine shop interested him most.

He remarked that the Americans are certainly ahead of all other nations in respect to pneumatic tools.

It was 1:05 when the royal visitor left the ship yard, and driving rapidly between two solid masses of people, the party reached the Union League at 1:30 p.m.

Here he was the honored guest at a private luncheon attended by 100 prominent citizens.

The prince made a brief address.

The prince said:

**Speech of the Prince.**

"I wish to thank you for the kind reception I met with in the Union League. Gentlemen, this is probably the last opportunity I will have during my visit to the United States to speak in public, and I am not sorry that this should be so. What I am going to communicate to you here I am saying before the world. There has been absolutely no secret object in view connected with my mission to your country. Should any of you read or hear anything to the contrary I authorize you herewith to flatly contradict it. I was told before leaving my home to open my eyes, as well as my ears, as wide as possible, to speak as little as I could. In this latter instance I am afraid my mission is a failure. I saw many more things than many of you are aware of. I equally heard a great many things among others many kind words of individuals, as well as the shouts of welcome of thousands of your countrymen. What I express in your presence I express in the presence of your nation—my heartfelt thanks for the cordial reception and good feeling I met with during my stay in your country. It will be my duty to inform his majesty, the emperor, of this fact. I am homeward bound tomorrow. It would be wrong of me to say I am sorry to go home, but at the same time I feel sorry to leave a country in which I have met with so much kindness and hospitality. Let me add, gentlemen, let us try and be friends."

**Ancient Chinese Bridges.**

Suspension bridges which were built in the time of the Han dynasty (202 B. C. to 220 A. D.) are still standing, striking examples of oriental engineering skill. According to historical and geographical writers of China, it was Shang Lieng, Kaen Tsu's chief of command, who undertook to construct the first public roads in the flowery empire. At that time it was almost impossible for the province of Shense to communicate with the capital. Lieng took an army of 10,000 workmen and cut great gorges through the mountains, filling up the canyons and valleys with the debris from his excavations. At places where deep gorges were traversed by large and rapidly flowing streams he actually carried out his plan of throwing suspension bridges, stretching from one slope to the other.

These crossings, appropriately styled "flying bridges" by early Chinese writers, are high and dangerous looking in the extreme. At the present day a bridge may still be seen in the Shense which is 400 feet long and is stretched over a chasm more than 1,000 feet deep. How those early engineers erected such a structure with the tools and appliances at their command is a mystery which will probably never be explained.

# PRINCE SAILS TODAY.

Last Night He Attended a Theater--Dined His Hosts Early In Evening.

## VISIT MADE TO PHILADELPHIA.

The Party Were There Yesterday. Taken to Independence Hall--Made Inspection of Cramp's Ship Yard. Guest at Luncheon.

New York, March 11.—Prince Henry and his party arrived from Philadelphia at 5:25 p.m. yesterday and were taken on the navy yard tug John Bowers to Hoboken, whence they were escorted to the steamship Deutschland, on which the prince is to sail for Europe today. On the steamship the prince gave a dinner to those who had been his hosts while in New York.

About 9 o'clock the party again boarded the John Bowers for New York and were driven to the Irving Place theater, where they witnessed a performance and later returned to the ship.

Philadelphia, March 11.—Prince Henry of Prussia, finished his American tour in this city yesterday, and for the brief space of five hours was the guest of this municipality. His reception was most cordial and his welcome heartfelt.

Mayor Ashbridge extended the freedom of the city to the royal visitor and presented the prince a handsome album containing his address of welcome beautifully engrossed.

Prince Henry made a brief response.

Previous to Prince Henry's departure from the city hall he was presented with an engrossed address of welcome by a committee representing the Central League of the Pennsylvania State League of Veterans and Soldiers of the German Army.

### Cheered By the People.

The streets through which the prince passed from the municipal building to Independence hall were thronged with cheering people and the right hand of the royal guest was kept constantly in motion acknowledging the welcoming ovations. On the wide plaza in front of the historic old structure stands a statue of George Washington. A roar of applause greeted the action of his royal highness when he, on alighting, gracefully uncovered before the statue.

Accompanied by Admiral Evans and Mayor Ashbridge, the prince entered the building and proceeded to the assembly room. He was informed that it was in this room the declaration of independence was signed, and he displayed much interest in the colonial and revolutionary relics exhibited in the adjoining room. The prince was presented with an illustrated album containing a history of Independence hall. In the corridor of the building 10 veterans of the Franco-Prussian war stood ready to greet the prince. He shook hands with each and made inquiry of them as to their regiments and the battles in which they had participated. While these incidents were in progress 350 picked singers from the various German singing societies stood on the plaza and rendered Beethoven's "Die Ehre Gottes," accompanied by instrumental music. Prince Henry remained in Independence hall about seven minutes and from there proceeded to the plant of the William Cramp & Sons' Ship and Engine Building company.

There are other things besides the garbage furnace question that require the attention of the health authorities, now that warm weather is approaching. There are heaps of garbage about the city that have neither been buried nor burned and for the disposal of which no provision has been made. A most amusing case is apparent at the lower end of Third street. There, within a few feet of a sign placed by the health board, saying "You will be prosecuted for dumping garbage here," is a heap of refuse nearly as high as the sign itself—some of it recently dumped there, unless indications are misleading. If anybody has been prosecuted for dumping garbage anywhere, the fact has not been reported. Certainly residents of the Third street neighborhood have not been inspired with any terror by the board of health threats, and it is doubtful if anybody has. The condition of some of these garbage dumps is disgraceful to the city, as well as a standing menace to the public health. It is high time action were taken and something more than sign-board notices relied upon to compel those who are constantly violating and defying the ordinances of the city to cease creating nuisances. Will the board of health act, or continue a do-nothing policy until the city pays the penalty for its neglect with some deadly epidemic?

Brigadier General Frederick Funston, who certainly knows what he is talking about, said in a recent address, speaking of the American soldiers in the Philippines: "I say unhesitatingly that all those who have died since January, 1900, have died not because the Filipinos had much heart for continuing the fight, but because they were sustained by a lot of misguided and misinformed persons here in the United States." His opinion coincides with that of army officers generally who have been in the Philippines. Will the jawsmiths and the anti-Americans at home never realize the enormity of the offense of which they are guilty and keep quiet?

Relying on Republican assistance which they will not get will not save East Liverpool Democrats from their usual fate at the spring election. The number of Republicans in this city who desire to be reckoned as Democratic coadjutors has not been increasing, but diminishing of late.

The muddy condition of the streets of Youngstown, according to a dispatch from that city, has called forth many protests, and Miss Essie Stewart has offered to take charge of the

street cleaning department and place the streets in passable condition. She asserts that as the men have failed to clean the streets the women should have a chance. East Liverpool is crowded, but if Miss Stewart desires to move here and pursue the same line of work she can safely be guaranteed accommodations.

The Ohio legislature will begin hearings on the municipal code bill this week. The measure is an important one and has a strong backing. The legislature will act wisely in giving it due consideration, learning the sentiment of the state on the question, and acting accordingly.

Where are the East Liverpool Republicans who desire to be counted as assistant Democrats? There is to be an invitation extended to them to come out and show themselves. Nobody save those who will be disappointed is looking for a numerous response.

Democrats who are looking for dissension or lack of harmony in the ranks of East Liverpool Republicans are looking for something that does not exist save in their own fertile imaginations.

Some stronger plea than that they want the offices must be presented by the Democrats before they can induce Republicans to join them.

Democrats are famous for building their hopes high without a foundation. That habit causes many a dizzy fall.

POTTERY NEWS

The acceptance of yearly contracts at 70 off the C. C. list when the associated manufacturers' regular discount is 60 off, has created comment among pottery manufacturers, and there is strong feeling against the Union Potteries company and a few other firms such as the Ford China company of Ford City, Pa., and the Wick China company, of Kittanning, Pa., who are doing the cutting, says a trade journal. The cutting, some think, would not be so bad if it was only temporary, but guaranteeing to sell at that price for a year makes the manufacturers angry. Of course it is insisted upon by some pottery people that the ware produced by these firms is not nearly up to the standard, but nevertheless their price-cutting and guarantees are affecting the market and are making it uncomfortable for others who have been holding to the original prices agreed upon.

The East Liverpool Potteries company has received an order for a piece of sanitary ware of new design for a Pittsburgh hospital. The mould is now ready, and the shape will be put through at the East Liverpool.

B. Rhead, representing the Thomas Hulme company, of Hanley, England, is in the city. He is taking up the work of the late James Clarke, whose sudden death was noted in this paper several weeks ago.

The Wolff Manufacturing company of Chicago, owners of the Monument pottery, has consulted an architect relative to the drawing of plans for an extensive addition to the Trenton plant.

Work was resumed at the Diamond yesterday, and within a few days the factory will be in full operation. A glaze kiln was drawn yesterday, and all the kilnmen are at work.

Harry Forster, a glider at Laughlin No. 2, will gild the ball with which the association football team representing that plant won a victory from the Buckeyes last Saturday.

The Taylor, Smith & Taylor has engaged J. A. Knorr as a traveler, and he started west yesterday. Mr. Knorr was formerly buyer for Hoyt & Sefton of Cleveland.

J. B. Owens company, of Zanesville, has secured temporary quarters and will at once begin the manufacture of art ware. The plant was burned a few days ago.

Miss Ada Knox, of the decorating department at the Goodwin, has returned to the city from a visit with relatives at Steubenville.

Charles Surles, of the McNicol, left yesterday for an extended trip through the northwest. He will be gone probably two months.

Daniel Daley, a former filler for Harry Deitz, has been unable to work for several days on account of illness.

John Herron, a batter-out at Laughlin No. 2, is ill at his home on Wall street, threatened with fever.

The Crown Pottery company, recently organized at Peoria, is expected to

start its plant not later than April. All the machinery is being overhauled, and assurance is given that the plant will be operated steadily.

The dispute of the pressers at the Dresden has not been settled. It was thought arrangements could be made at the meeting of No. 4 last night that would lead to an adjustment, but the matter is still pending before the arbitration committee.

At a meeting of local No. 32, printers and transferers, held last evening William Elder was elected to fill the office of president, caused by the resignation of George Quell. Two new members, transferers, were obligated at this session.

Groundlayers' and Gilders' local No. 19 last evening received six applications for membership and obligated two new members. Discussions relating to the convention resolutions occupied a great part of the evening.

Saggermakers' local No. 16 obligated two new members last evening and received two applications for membership. Nothing but routine business was transacted.

Pressers' local No. 4 held a session last evening lasting until 11 o'clock. The strike of the pressers at the Dresden was discussed, but no agreement reached.

An enclosure is being built about the stock department of the Potters' Supply works at the foot of Washington street.

The Cowen-Heineberg company is a new firm incorporated for \$50,000, with offices at 229 Sutter street, San Francisco, Cal.

The biscuit kilnhand at the Union were transferred to the glaze end of the factory yesterday in order to rush the kiln.

Frederick Webb, for several years a kilnhand at the Carwright, is now a member of the biscuit crew at the Buckeye.

The newly organized fillers-in and decalcomania workers' local No. 61 will meet in Knights of Columbus hall tonight.

Thomas C. Smith has left for a trip through the east for the Edwin M. Knowles. He will be gone several weeks.

The regular semi-monthly meeting of the Potters' Exchange will be held this evening in the Potters' club rooms.

Mart Thornberry went to East Palestine yesterday, where he has taken a position as kilnman at the pottery.

The D. E. McNicol is making some large shipments and everything about the pottery indicates the greatest activity.

Miss Carrie McNicol, a finisher at the East Liverpool, is confined to her home with grip.

Turners' and Handlers' No. 10 met last evening and talked about convention resolutions.

F. F. Deboit, a local salesman left yesterday for a short trip through Ohio.

The Potters' Exchange meets this evening.

AT THE THEATER

The principal dramatic novelty of the current season is the production of the new play by Hal Reid, "At the Old Cross Roads." The story that it reveals is highly dramatic; the situations and climaxes thrilling in the extreme, but the whole is so happily blended with comedy scenes and incidents as to charm all. Another important factor in a play of this character is the fact that it affords unlimited opportunities for an especially beautiful toilette display by the feminine portion of the company. "At the Old Cross Roads" will be presented

There are other things besides the garbage furnace question that require the attention of the health authorities, now that warm weather is approaching. There are heaps of garbage about the city that have neither been buried nor burned and for the disposal of which no provision has been made. A most amusing case is apparent at the lower end of Third street. There, within a few feet of a sign placed by the health board, saying "You will be prosecuted for dumping garbage here," is a heap of refuse nearly as high as the sign itself—some of it recently dumped there, unless indications are misleading. If anybody has been prosecuted for dumping garbage anywhere, the fact has not been reported. Certainly residents of the Third street neighborhood have not been inspired with any terror by the board of health threats, and it is doubtful if anybody has. The condition of some of these garbage dumps is disgraceful to the city, as well as a standing menace to the public health. It is high time action were taken and something more than sign-board notices relied upon to compel those who are constantly violating and defying the ordinances of the city to cease creating nuisances. Will the board of health act, or continue a do-nothing policy until the city pays the penalty for its neglect with some deadly epidemic?

Brigadier General Frederick Funston, who certainly knows what he is talking about, said in a recent address, speaking of the American soldiers in the Philippines: "I say unhesitatingly that all those who have died since January, 1900, have died not because the Filipinos had much heart for continuing the fight, but because they were sustained by a lot of misguided and misinformed persons here in the United States." His opinion coincides with that of army officers generally who have been in the Philippines. Will the jawsmiths and the anti-Americans at home never realize the enormity of the offense of which they are guilty and keep quiet?

Relying on Republican assistance which they will not get will not save East Liverpool Democrats from their usual fate at the spring election. The number of Republicans in this city who desire to be reckoned as Democratic coadjutors has not been increasing, but diminishing of late.

The muddy condition of the streets of Youngstown, according to a dispatch from that city, has called forth many protests, and Miss Essie Stewart has offered to take charge of the

street cleaning department and place the streets in passable condition. She asserts that as the men have failed to clean the streets the women should have a chance. East Liverpool is crowded, but if Miss Stewart desires to move here and pursue the same line of work she can safely be guaranteed accommodations.

The Ohio legislature will begin hearings on the municipal code bill this week. The measure is an important one and has a strong backing. The legislature will act wisely in giving it due consideration, learning the sentiment of the state on the question, and acting accordingly.

Where are the East Liverpool Republicans who desire to be counted as assistant Democrats? There is to be an invitation extended to them to come out and show themselves. Nobody save those who will be disappointed is looking for a numerous response.

Democrats who are looking for dissension or lack of harmony in the ranks of East Liverpool Republicans are looking for something that does not exist save in their own fertile imaginations.

Some stronger plea than that they want the offices must be presented by the Democrats before they can induce Republicans to join them.

Democrats are famous for building their hopes high without a foundation. That habit causes many a dizzy fall.

Lebe wohl, Hohenzollern! Come back when you want to be shown another good time.

At all events, Secretary Long did not quit the cabinet under fire.

## POTTERY NEWS

The acceptance of yearly contracts at 70 off the C. C. list when the associated manufacturers' regular discount is 60 off, has created comment among pottery manufacturers, and there is strong feeling against the Union Potteries company and a few other firms such as the Ford China company of Ford City, Pa., and the Wick China company of Kittanning, Pa., who are doing the cutting, says a trade journal. The cutting, some think, would not be so bad if it was only temporary, but guaranteeing to sell at that price for a year makes the manufacturers angry. Of course it is insisted upon by some pottery people that the ware produced by these firms is not nearly up to the standard, but nevertheless their price-cutting and guarantees are affecting the market and are making it uncomfortable for others who have been holding to the original prices agreed upon.

Democrats who are looking for dissension or lack of harmony in the ranks of East Liverpool Republicans are looking for something that does not exist save in their own fertile imaginations.

**WELLSVILLE****A VACANCY DECLARED**

J. F. RUSSELL DROPPED FROM REPUBLICAN TICKET.

He Has Left Town—Primaries to Choose Candidate for Water Works Trustee.

The Republican central committee held a meeting in the city hall last evening for the express purpose of taking action upon the prolonged absence of J. F. Russell from the city. At the recent city primary election Russell was nominated as candidate for the office of water works trustee. Immediately after being nominated he left the city and as yet has not been heard from, and no one seems to know where he is located.

Russell came to Wellsville two years ago and for a time was very popular with every one with whom he came in contact with, in fact he was styled by all "a jolly, good fellow." It takes money and lots of it to be "a good fellow," and Russell, it is pretty well understood, did not have the necessary amount, in consequence of which he was deeply in debt. Immediately upon being nominated for the city office his creditors began to push him and found to their sorrow that they could not collect.

If the tales told by many citizens are true no man in Wellsville ever succeeded in landing so many victims.

Russell was in the employment of the Ohio Valley Gas company and received a good salary. The company, it seems, became uneasy and discharged him about three weeks ago. It was at that time that he left the city.

Ely Taylor, secretary of the committee, stated to the other members that he had inquired at the gas office and found that Russell was discharged, had left the city and no traces of him had been found. All having been informed likewise a motion by Taylor that the name of J. F. Russell be stricken from the ticket and the office be declared vacant received an immediate second and was passed without a dissenting vote.

A motion was then passed that another primary election be held next Saturday between the hours of 1 and 7 p.m. for the purpose of nominating a candidate for water works trustee.

The motion, however, was made so that only the three candidates who were not successful at the first primary, can be voted upon. These candidates are Emmet Gerren, Thomas Johnston and Lon Phillips. Their names will appear on the ticket as they are above given.

**WELLSVILLE****A VACANCY DECLARED**

**J. F. RUSSELL DROPPED FROM REPUBLICAN TICKET.**

**He Has Left Town—Primaries to Choose Candidate for Water Works Trustee.**

The Republican central committee held a meeting in the city hall last evening for the express purpose of taking action upon the prolonged absence of J. F. Russell from the city. At the recent city primary election Russell was nominated as a candidate for the office of water works trustee. Immediately after being nominated he left the city and as yet has not been heard from, and no one seems to know where he is located.

Russell came to Wellsville two years ago and for a time was very popular with every one with whom he came in contact with, in fact he was styled by all "a jolly, good fellow." It takes money and lots of it to be "a good fellow," and Russell, it is pretty well understood, did not have the necessary amount, in consequence of which he was deeply in debt. Immediately upon being nominated for the city office his creditors began to push him and found to their sorrow that they could not collect.

If the tales told by many citizens are true no man in Wellsville ever succeeded in landing so many victims.

Russell was in the employment of the Ohio Valley Gas company and received a good salary. The company, it seems, became uneasy and discharged him about three weeks ago. It was at that time that he left the city.

Ely Taylor, secretary of the committee, stated to the other members that he had inquired at the gas office and found that Russell was discharged, had left the city and no traces of him had been found. All having been informed likewise a motion by Taylor that the name of J. F. Russell be stricken from the ticket and the office be declared vacant received an immediate second and was passed without a dissenting vote.

A motion was then passed that another primary election be held next Saturday between the hours of 1 and 7 p. m. for the purpose of nominating a candidate for water works trustee.

The motion, however, was made so that only the three candidates who were not successful at the first primary, can be voted upon. These candidates are Emmet Gerren, Thomas Johnston and Lon Phillips. Their names will appear on the ticket as they are above given.

**TRUST LAWS VOID.**

**U. S. Supreme Court Finds Illinois Act to Combat Combines Unconstitutional.**

**LAWS OF 13 STATES ILLEGAL.**

**This Because Agricultural Products Were Not Included—Suit of Government Against Northern Securities Company Filed.**

Washington, March 11.—The United States supreme court yesterday decided that the Illinois' anti-trust statute to be unconstitutional because of the provision of the law exempting agricultural products and live stock from the operations of the law. The decision was rendered in the case of Thomas Connelly and others against the Union Sewer Pipe company, of Ohio, and was delivered by Justice Harlan.

The decision of the court in effect declares unconstitutional the anti-trust laws of Georgia, Illinois, Indiana, Louisiana, Michigan, Mississippi, Montana, Nebraska, North Carolina, South Dakota, Tennessee, Texas and Wisconsin.

In each of these states there is an exemption in favor of live stock and agricultural products in the hands of the raiser or producer, or of labor organizations. Under the rulings of the court, an anti-trust law, to be constitutional, must apply indiscriminately to all combinations, with no exemptions or exceptions whatever. Justice McKenna dissented.

St. Paul, March 11.—By direction of the attorney general of the United States a bill in equity was filed here yesterday in the circuit court of the United States for the district of Minnesota, in the case of the United States, complainant, against the Northern Securities company, the Great Northern Railway company, the Northern Pacific Railway company and others, defendants, to test the legality of the alleged combination or merger of the two roads and others named in the bill. The action is brought under the act of July 2, 1890, known as the Sherman anti-trust act.

**CEN. METHUEN IS CAPTURED.**

Taken by Delarey—41 British Killed, 77 Wounded and 201 Missing.

London, March 11.—It was announced yesterday that General Lord Methuen and four guns had been captured by the Boers commanded by General Delarey. The news came like a thunderbolt to London. The extra editions of the evening papers giving an account of the disaster were eagerly bought up and their readers hurried through the streets with anxious faces and bitter remarks were passed on the subject of the government's declaration that the war in South Africa was over.

The news was received in the house of commons amid great excitement. The reading of Lord Kitchener's telegram by the war secretary, Mr. Brodrick, was listened to in deep silence, which was broken by loud Irish cheers. Instantly there were cries of "Shame," "Shame," from the government benches. Then the Irish members seemed to think better of their outbreak and suddenly subsided. The subsequent eulogistic references to General Methuen were received with cheers.

In brief, Lord Kitchener announced that when General Methuen was captured, with four guns, three British officers and 38 men were killed and five officers and 72 men were wounded. In addition one officer and 200 men were reported missing.

Lord Roberts announced the defeat in the house of lords. He praised Methuen, as did Premier Salisbury. They and other speakers suggested suspension of judgment until more

**HIRERS OF LABOR AND THEIR DUTY**

By United States Senator MARK A. HANNA

AM ONE OF THOSE WHO HAVE ARRIVED AT THE CONCLUSION THAT THE HIRERS OF LABOR HAVE A DUTY TO PERFORM AS WELL AS THE LABORERS HAVING A DUTY TO PERFORM TO THEIR EMPLOYERS. I ask business men—

aye, I plead with them—to pause in the middle of their daily avocations and think if there is not something they can do to better the conditions of their fellow men. The wealth from our industries is all lost if we don't use it to help everybody.

It was this thought that brought the feeling to me that the time had arrived when a better feeling should exist between the employer and the employed.

**I FEEL THAT THE ORGANIZERS OF WORKMEN ARE WORKING EARNESTLY AND HONESTLY TO IMPROVE LABOR CONDITIONS. IT IS TO GREAT ORGANIZATIONS OF BUSINESS MEN THAT WE LOOK FOR CO-OPERATION, AND NOT ONLY THAT, BUT SYMPATHY AND ACTIVE SUPPORT.**

details were received. Lord Roberts, in his speech said that from Delarey's conduct through the war Methuen would be well treated.

The feeling of depression in the lobbies of the house of commons over the news of the disaster in South Africa were very marked. The service members of the house expressed the opinion that it will necessitate sending fresh troops to the front, while the belief was widely expressed that the Boers will not fail to take advantage of General Methuen's prominence to hold him as a hostage for the safety of Commandant Kritzinger and other Boer leaders now in the hands of the British.

**ARTISTS' BLUNDERS.**

**Some Odd Mistakes That Have Been Perpetrated on Canvas.**

In a letter from an artist and art writer of London he speaks of the absurd mistakes made by some of the old masters. In the very pretentious and also very large portrait of Queen Victoria executed by Benjamin Constant the well known French artist painted the ribbon of the Order of the Garter of a wrong color, and the artist was much chagrined by the evidence of his own carelessness. Queen Victoria told him he was using the wrong color, but he was not convinced.

There is a landscape by a famous English painter in which a rainbow is depicted behind the sun, and a picture of Eden is in the gallery of the Gesu, in Lisbon, where Adam and Eve are represented as watching a procession of monks.

In the famous galleries of Antwerp are certain pictures by old masters in which the jumble of ideas is as remarkable as the technique is fine. In one picture of heaven the archangels are armed with bows and arrows, and in a painting of the "Murder of the Innocents" the massacre is represented as taking place in a city of Holland. The parents of the children are stout burghers, the Roman soldiers are Dutch policemen armed with muskets, and the innocent infants are transformed into solid schoolboys in bulgy trousers and jackets and hobnailed shoes. The effect is droll.

**Things He Didn't Understand.**

At the table on an incoming liner on a recent trip one of the first cabin passengers found in an oyster one of the tiny seed pearls which look almost exactly like bird shot. Apparently the formation of pearls was a mystery to him, for he examined the thing curiously, picked it up gingerly and laid it on the tablecloth for further investigation.

Now, it is a habit of cooks at sea to carry fishhooks in their pockets, and on this trip, by a curious coincidence, part of a small hook got caught in a piece of beefsteak that was served to this particular passenger. As soon as his knife encountered the hard object he started, picked it out carefully and laid it beside his other find on the cloth.

Then he beckoned to the waiter and confidentially whispered in his ear, "I don't want to be impudent," he said, "but would you mind telling me where you shoot your oysters and why you catch your steaks with a hook and line?"—New York Post.

London, March 11.—It was announced yesterday that General Lord Methuen and four guns had been captured by the Boers commanded by General Delarey. The news came like a thunderbolt to London. The extra editions of the evening papers giving an account of the disaster were eagerly bought up and their readers hurried through the streets with anxious faces and bitter remarks were passed on the subject of the government's declaration that the war in South Africa was over.

The news was received in the house of commons amid great excitement. The reading of Lord Kitchener's telegram by the war secretary, Mr. Brodrick, was listened to in deep silence, which was broken by loud Irish cheers. Instantly there were cries of "Shame," "Shame," from the government benches. Then the Irish members seemed to think better of their outbreak and suddenly subsided. The subsequent eulogistic references to General Methuen were received with cheers.

In brief, Lord Kitchener announced that when General Methuen was captured, with four guns, three British officers and 38 men were killed and five officers and 72 men were wounded. In addition one officer and 200 men were reported missing.

Lord Roberts announced the defeat in the house of lords. He praised Methuen, as did Premier Salisbury. They and other speakers suggested suspension of judgment until more

**HIRERS OF LABOR AND THEIR DUTY**

By United States Senator MARK A. HANNA

AM ONE OF THOSE WHO HAVE ARRIVED AT THE CONCLUSION THAT THE HIRERS OF LABOR HAVE A DUTY TO PERFORM AS WELL AS THE LABORERS HAVING A DUTY TO PERFORM TO THEIR EMPLOYERS. I ask business men—aye, I plead with them—to pause in the middle of their daily avocations and think if there is not something they can do to better the conditions of their fellow men. The wealth from our industries is all lost if we don't use it to help everybody.

It was this thought that brought the feeling to me that the time had arrived when a better feeling should exist between the employer and the employee.

**I FEEL THAT THE ORGANIZERS OF WORKINGMEN ARE WORKING EARNESTLY AND HONESTLY TO IMPROVE LABOR CONDITIONS. IT IS TO GREAT ORGANIZATIONS OF BUSINESS MEN THAT WE LOOK FOR CO-OPERATION, AND NOT ONLY THAT, BUT SYMPATHY AND ACTIVE SUPPORT.**

details were received. Lord Roberts, in his speech said that from Delarey's conduct through the war Methuen would be well treated.

The feeling of depression in the lobbies of the house of commons over the news of the disaster in South Africa were very marked. The service members of the house expressed the opinion that it will necessitate sending fresh troops to the front, while the belief was widely expressed that the Boers will not fail to take advantage of General Methuen's prominence to hold him as a hostage for the safety of Commandant Kritzinger and other Boer leaders now in the hands of the British.

**CORONERS STOPPED FUNERAL.**

Alleged That Girl Died of a Criminal Operation.

Upper Sandusky, O., March 11.—Coroner Stutz, of Wyandot county, and Coroner Ramroth, of Marion county, yesterday stopped the funeral of Miss Hite, at Brush Ridge, and took charge of the body and began holding an inquest. It is alleged that two physicians are the cause of the girl's death, which, it is claimed, resulted from a criminal operation.

**ARTISTS' BLUNDERS.**

Some Odd Mistakes That Have Been Perpetrated on Canvas.

In a letter from an artist and art writer of London he speaks of the absurd mistakes made by some of the old masters. In the very pretentious and also very large portrait of Queen Victoria executed by Benjamin Constant the well known French artist painted the ribbon of the Order of the Garter of a wrong color, and the artist was much chagrined by the evidence of his own carelessness. Queen Victoria told him he was using the wrong color, but he was not convinced.

There is a landscape by a famous English painter in which a rainbow is depicted behind the sun, and a picture of Eden is in the gallery of the Jesu, in Lisbon, where Adam and Eve are represented as watching a procession of monks.

In the famous galleries of Antwerp are certain pictures by old masters in which the jumble of ideas is as remarkable as the technique is fine. In one picture of heaven the archangels are armed with bows and arrows, and in a painting of the "Murder of the Innocents" the massacre is represented as taking place in a city of Holland. The parents of the children are stout burghers, the Roman soldiers are Dutch policemen armed with muskets, and the innocent infants are transformed into solid schoolboys in bulgy trousers and jackets and hobnailed shoes. The effect is droll.

**Things He Didn't Understand.**

At the table on an incoming liner on a recent trip one of the first cabin passengers found in an oyster one of the tiny seed pearls which look almost exactly like bird shot. Apparently the formation of pearls was a mystery to him, for he examined the thing curiously, picked it up gingerly and laid it on the tablecloth for further investigation.

Now, it is a habit of cooks at sea to carry fishhooks in their pockets, and on this trip, by a curious coincidence, part of a small hook got caught in a piece of beefsteak that was served to this particular passenger. As soon as his knife encountered the hard object he started, picked it out carefully and laid it beside his other find on the cloth.

Then there was a man in thin brown legs and much turban who walked solemnly behind enjoying a footbath. He was obviously a government functionary, although his exact sphere of usefulness I could not discover. He appeared to be something in the nature of a rear guard.

Then there was a "forelover," or advance guard, for the purpose of clearing the way. There appeared to be an idea that the little bullocks might suddenly go mad and rush ahead. At any rate, it gave congenial employment to one more native, and that was something.

There was yet another, who bent down now and then to pick up a piece of stone or brush away some irregularity unseen by ordinary eyes.

This outfit was a treat to me. It was solemn; it was full of self consciousness; it was magnificently oriental.

I have seen men in sublime moments; I have seen the red capped station master of Germany strut up and down his platform when an imperial train was about to arrive, but even that impressed me less than the watering cart of Singapore, with its municipal hierarchy of Malay ministers, each earning perhaps 2 cents a day.

Then he beckoned to the waiter and confidentially whispered in his ear. "I don't want to be impudent," he said, "but would you mind telling me where you shoot your oysters and why you catch your steaks with a hook and line?"—New York Post.

**UNCLE SAM'S MONEY**

THE SAFEGUARDS THAT HEDGE ABOUT ITS MANUFACTURE.

Care With Which Even the Shavings of the Peculiar Paper Used Are Handled—Counting and Recounting the Treasured Sheets.

Uncle Sam's paper money has its birth in the bureau of engraving and printing in Washington. Here a corps of engravers cut its lines into plates of steel. Five hundred men and women are in one room. It is the largest printing office in the world. Here are struck from these plates the notes which we give the butcher and the baker. Each steel plate when not in actual use is stored away in a great burglar proof vault to which only the highest officials know the combination. At the side of each printing press is a little indicator like a bicycle cyclometer, which keeps tally of every piece of paper money printed. Thus is Uncle Sam kept informed as to the exact number of paper notes of all denominations which leave his presses daily.

If there is any secret which Uncle Sam jealousy guards, it is the process of manufacturing the fiber paper upon which his money notes are printed. He pays a Massachusetts firm a big price for it, and this firm does its work under the surveillance of a government agent. The paper is manufactured of the finest rags, cleaned, boiled and mashed into pulp. As it is rolled into thin sheets silk threads are introduced into it by a secret process. These are the distinguishing marks which make imitation of the paper well nigh impossible.

The sheets of paper, already counted twice and placed in uniform packages at the paper mill, are stored in a treasury vault and issued to the bureau of engraving and printing as wanted. Before leaving the treasury they are counted three times more, and the receiving official at the bureau must receipt for them. Then the bundles are unwrapped, and the sheets are counted twenty-eight times by a corps of women. This is to insure that each printer gets the recorded number—no more, no less. Before any employee of the division in which this paper is kept can leave for home each night he must exhibit to a watchman at the door a pass certifying that every fragment of every sheet passing through his fingers has been accounted for.

If one sheet of this precious paper be lost, the entire force of men and women having access to the room where the misplacement has occurred are kept in, like so many school children, to find it. Each sheet is issued from the vault for the printing of a definite amount of money upon it. If the lost sheet were intended to ultimately represent \$4,000 worth of notes, the group of employees to whom the responsibility of its misplacement has been traced must make good that amount if they cannot locate it within a reasonable time.

"I make all these rigs myself," he said, "and hire 'em out. It pays, but I have to keep dark, for the police are very down on my sort. This hollow wooden cap with an iron hook fits over your head, and here's a clubfoot boot and yonder a pair for both feet."

"A queer business? You'd say so if you knew the jobs I'm asked to do sometimes. Only yesterday a woman wanted vitriol scars made on her face and actually wanted me to use real vitriol. Didn't know what she was asking? Oh, yes! Why, bless you, some beggars'll maul themselves horribly to excite sympathy. In fact, they'd do anything rather than work."—New York World.

**SPRINKLING SINGAPORE.**

The Solemn Procession That Accompanies the Watering Cart.

Poulton Bigelow in his description of the marvelous progress made by the city of Singapore under English rule gave a quaint picture of the manner in which the streets are watered:

The watering cart was drawn by little white bullocks and driven by Malays with turbans. It seemed to take five Malays to do this driving. One roosted aloft on top of the barrel for the purpose of controlling the outgo of water. He seemed very proud of his appointment. Another native in a big turban roosted on the pole and controlled the little cattle.

Then there was a man in thin brown legs and much turban who walked solemnly behind enjoying a footbath. He was obviously a government functionary, although his exact sphere of usefulness I could not discover. He appeared to be something in the nature of a rear guard.

Then there was a "forelover," or advance guard, for the purpose of clearing the way. There appeared to be an idea that the little bullocks might suddenly go mad and rush ahead. At any rate, it gave congenial employment to one more native, and that was something.

## RURAL DELIVERY BILL PASSED.

Measure Amended by Opponents Until Its Purpose Was Changed. Carriers on Salaries.

Washington, March 11.—The bill to classify the rural free delivery service and place the carriers under the contract system, which has been debated in the house for over a week, was passed yesterday, but in a form that completely changed the purpose for which it was framed. Before it was passed the bill was altered radically by its opponents. All the provisions relating to the placing of carriers under the contract system were stricken out, and the salary system not only was continued, but the maximum salary of carriers was increased from \$500 to \$600 per annum. A motion offered by Mr. Williams (Dem., Ills.) to recommit the bill, with instructions to report back an amendment providing for the dismissal from the service of carriers who should use their influence in favor of any particular party or for any particular candidate was voted down—96 to 141.

As passed, the bill classifies the rural free delivery service and fixes the compensation of employees as follows: Special agents in charge of divisions, not exceeding \$2,400 per annum; special agents, four classes, graded from \$1,300 to \$1,600; route inspectors, four classes, graded from \$900 to \$1,200; clerks, four classes, from \$900 to \$1,200. The compensation of carriers is not to exceed \$600. Today the postoffice appropriation bill will be considered.

## GERMAN-VENEZUELAN DISPUTE.

The Affair Reported to Be Nearing a Settlement.

Berlin, March 11.—The dispute between Germany and Venezuela's nearing a settlement. The terms of this settlement are as yet a foreign office secret. They are however satisfactory to Germany, and Venezuela has apparently yielded without Germany's having made any direct threat or having had to do anything like sending an ultimatum.

It is believed that as a last condition prior to his acceptance of Germany's requests, the President of Venezuela, Gen. Castro said he could not submit easily to these requests while a German fleet was anchored in his principal harbor. Consequently the German squadron at La Guayra is now dispersing. The flagship of the squadron, the cruiser Vineta, has been ordered to the coasts of Colombia, Costa Rica and Nicaragua, the cruiser Faike will ascend the Amazon and the only vessel to remain is La Gazelle.

## HOTEL NOT EQUIPPED RIGHT.

Coroner's Jury Agreed Fire Was Communicated From Armory.

New York, March 11.—The coroner's jury, which has been investigating the Park Avenue hotel fire in this city on Feb. 22, agreed on a verdict yesterday declaring that the fire was communicated to the hotel by sparks from the Seventy-first regiment armory, across the street.

The armory was almost entirely destroyed by fire. The jury found that the hotel was not properly equipped for the safety of guests and occupants in that there was no stand-pipe provided for the use of the fire department and that there were no ropes or fire escapes.

## IRISH DELIGHT AT DEFEAT.

Rosebery Said It Demonstrated Impossibility of Home Rule.

Glasgow, March 11.—Lord Rosebery spoke before a crowded meeting at St. Andrew's hall last night. fresh indication of the impossibility of home rule. Lord Rosebery said that if he returned from the dead, could not care to entrust an independent parliament to men who openly rejoiced at a British military disaster.

**Strike May Grow to 14,000.** Boston, March 11.—Nearly every labor union in this city met last night to discuss the freight handlers' strike. The predictions were that the longshoremen, numbering 4,000, would strike, together with 2,000 Knights of Labor freight handlers employed by the Boston and Maine road, and 1,000 men in other unions, when their assistance is needed. If all these laborers cease work the striking force will be over 14,000 men.

## SOME NEWS IN BRIEF.

Whitecaps have sent a warning letter to the Rev. Mr. Laros, a Lansford (Pa.) minister, who is at the head of several anti-liquor and reform movements.

A thief rifled the trunks of a dozen or more boarders at the house of Michael Batchner, at Ellwood City, Pa., getting a total of \$470.

At Crescent, W. Va., near Charleston, George Conway shot and killed William Anderson during a quarrel Conway escaped.

The 6-year-old son of Joseph Light, of Greensburg, Pa., who disappeared from his home, was found at Harrisburg, where he is in charge of the Anti-Cruelty society. He will be brought home.

James Crewe and his aged wife, of Corry, Pa., were badly hurt in a struggle with burglars, who fled without getting anything and left behind them two hats and several revolvers.

At Niles, O., Dominick Negasio, an Italian, attacked Mrs. Dominick Infante with a knife, inflicting a gash 14 inches long, from the left shoulder across the back, and another over the face. The woman's condition is critical.

The Pennsylvania conference of the United Brethren Church in Christ at York, Pa., closed. Among the appointments announced by Bishop J. S. Mills were: Meyersdale, F. M. Glenn; Garfield, I. Lovall; New Cumberland, J. L. Grimm.

The laboratory of chemistry and metallurgy, presented by James Gay to Lafayette college, at Easton, Pa., will be dedicated April 5. In addition to the dedication of the building, the use of the Henry W. Oliver library of chemistry will be begun at that time.

Undoubted Reliability Expressed In East Liverpool Endorsements.

What you want is home endorsement.

The backing of people you know.

East Liverpool proof for East Liverpool people.

That's what follows here.

Surely no better backing can be had than the following statement from Mrs. Edward Orr, of 220 Thompson street, who says: "My sister, Mrs. Borland, of Pittsburg, while visiting us recommended Doan's Kidney Pills so highly that I was induced to try them. I had severe attacks of kidney complaint. Sometimes I was so bad I could not get up. Many times my neighbors came and found me lying on the lounge suffering, when I intended to do a big day's work. I was so miserable I could do nothing. After my sister told me of the pills I made up my mind to try them and got a box at the W. & W. pharmacy. They did just what they claimed they would do—cured me well and sound in a few days. My little girl was feeling poorly and had a sallow complexion for some time. I gave her a few doses and after the treatment she felt splendidly."

## BOSTON TERRIERS RULE THE SHOWS.

These Active, Intelligent Canine Aristocrats Have Everything Their Own Way at Present.

Dog shows have been breaking all records this year in point of number and value of exhibits. While the season of 1901 was a remarkable one in many respects, it has been relegated far to the rear by its successor, and wise is the man who can tell just where it is all going to stop. The recent exhibit in New York of the Westminster Kennel association was by long odds the greatest bench show ever held in this country, and the fortunes

ROGUE, BOSTON TERRIER.

represented by the four footed aristocrats entered in competition would equip a dozen or two Carnegie free libraries.

Every season has its own particular favorites, and, although popularity oftentimes extends in different lines in different parts of the country, there is usually some special canine that receives the major part of patronage. At present there is no doubt that the Boston terrier is the reigning favorite in the public eye. This game, picturesque little animal makes good appearance on the bench, has many attractive traits and is the product of high class breeding, surely a combination that deserves popular attention. The Boston terrier has obtained so lofty a position in the estimation of dog lovers that he is in demand in every locality where show dogs are in vogue, and his value has increased accordingly. In recent large exhibitions he has led the field in numbers by a large majority.

Just at this time it will probably prove of interest to delve into the subject of Boston terriers, giving a few points to breeders and exhibitors on prize winning qualities and describing the characteristics of the animal.

The composite view of the Boston terrier is that of a smooth, short coated, compactly built dog of medium stature.

The Boston terrier is a cross between an English terrier and an English bulldog.

He is now recognized by the American Kennel club as a distinct breed.

The body, skull, muzzle and tail of the Boston terrier are the most important points to be considered in judging.

The body counts for fifteen points and should be deep and broad at the chest and well ribbed up. In the perfect animal the skull is broad and flat, without prominent cheeks and with the forehead free from wrinkles. The "stop" the indentation between and below the eyes) should not be too prominent.

This terrier was originally produced in Boston, but several transatlantic fanciers state that he is identical with the "butcher's dog" which has been known in England for many years. The latter opinion, however, has not been given much weight.

Remlik Bonnie is considered by many judges to be one of the best Boston terriers ever produced. He is known as the "challenge Boston terrier," because the gauntlet was thrown down on his behalf last December and

he accepted it.

## CURES RHEUMATISM.

Stops the Pain and Reduces Swelling Almost Instantly.

**Blood Wine Goes About It In A Different Way Begins at the Bottom Removes the Cause.**

"Blood Wine" cures Rheumatism and cures it quickly, thoroughly and permanently. It cures neuralgia, and all forms of aches and pains. Is not rheumatism caused by uric acid in the blood? This everybody knows. To treat it you must have something to work directly on the blood, to filter it, cleanse and purify it, drive the uric acid out of it and make it so healthy that it or any other foreign matter will not return again.

"Blood Wine" is a powerful blood remedy, hence an effective rheumatic cure.

It contains no wine or opiates, but medicine of most extraordinary value. For Rheumatism "Blood Wine" never fails.

Mrs. T. Foster of Salem St., Providence, R. I., was saved from a life of suffering, and given back her health by using "Blood Wine." She says:

"I have used six bottles of 'Blood Wine' for rheumatism and backache, and feel it my duty to let you know what your medicine has done for me. I am completely cured and owe my recovery wholly to your 'Blood Wine.'"

MRS. ADDIE FLETCHER.

Mrs. Addie Fletcher of 22 Isabella St., Boston, Mass., has experienced a very wonderful cure of rheumatism of long standing. These are her words:

"I think I ought to write to you in regard to my experience with your valuable remedy. I have had rheumatism in my ankle so badly that I have been unable to walk for days at a time, and I was almost discouraged when 'Blood Wine' was recommended to me. I thought I would try one more medicine, and was delighted to find that I gained rapidly while taking one bottle, and now I find myself almost cured after taking four bottles. 'Blood Wine' is invaluable in my household and I heartily recommend it to all."

"Blood Wine" costs fifty cents a bottle, but you can sample it free of charge at Will Reed and Hodson's drug stores.

Before it was passed the bill was altered radically by its opponents. All the provisions relating to the placing of carriers under the contract system were stricken out, and the salary system not only was continued, but the maximum salary of carriers was increased from \$500 to \$600 per annum. A motion offered by Mr. Williams (Dem., Ills.) to recommit the bill, with instructions to report back an amendment providing for the dismissal from the service of carriers who should use their influence in favor of any particular party or for any particular candidate was voted down—96 to 141.

As passed, the bill classifies the rural free delivery service and fixes the compensation of employees as follows: Special agents in charge of divisions, not exceeding \$2,400 per annum; special agents, four classes, graded from \$1,300 to \$1,600; route inspectors, four classes, graded from \$900 to \$1,200; clerks, four classes, from \$900 to \$1,200. The compensation of carriers is not to exceed \$600. Today the postoffice appropriation bill will be considered.

## GERMAN-VENEZUELAN DISPUTE.

The Affair Reported to Be Nearing a Settlement.

Berlin, March 11.—The dispute between Germany and Venezuela is nearing a settlement. The terms of this settlement are as yet a foreign office secret. They are however satisfactory to Germany, and Venezuela has apparently yielded without Germany's having made any direct threat or having had to do anything like sending an ultimatum.

It is believed that as a last condition prior to his acceptance of Germany's requests, the President of Venezuela, Gen. Castro said he could not submit easily to these requests while a German fleet was anchored in his principal harbor. Consequently the German squadron at La Guayra is now dispersing. The flagship of the squadron, the cruiser Vineta, has been ordered to the coasts of Colombia, Costa Rica and Nicaragua, the cruiser Faike will ascend the Amazon and the only vessel to remain is La Gazelle.

## HOTEL NOT EQUIPPED RIGHT.

Coroner's Jury Agreed Fire Was Communicated From Armory.

New York, March 11.—The coroner's jury, which has been investigating the Park Avenue hotel fire in this city on Feb. 22, agreed on a verdict yesterday declaring that the fire was communicated to the hotel by sparks from the Seventy-first regiment armory, across the street.

The armory was almost entirely destroyed by fire. The jury found that the hotel was not properly equipped for the safety of guests and occupants in that there was no stand-pipe provided for the use of the fire department and that there were no ropes or fire escapes.

## IRISH DELIGHT AT DEFEAT.

Rosebery Said It Demonstrated Impossibility of Home Rule.

Glasgow, March 11.—Lord Rosebery spoke before a crowded meeting at St. Andrew's hall last night. He referred, in part, to the Irish demonstration in the house of commons yesterday, when the reading of Lord Kitchener's telegram announcing the capture of General Methuen was greeted by loud Irish cheers, as a

### Famous Abductions.

Marriage by abduction was by no means uncommon in the early ages. The daughter of the king of Argus was abducted by a Phoenician. The Greeks carried off Europa from Tyre and Medea from Colchis.

Next to the abduction of the fair Helen, perhaps the most remarkable in its political consequences was the King of Leinster's taking away of the wife of a neighboring petty sovereign, O'Rourke of Breffni.

The king of Connaught avenged the insult and drove from the throne his brother of Leinster, who appealed to Henry II. of England for aid to recover his lost sovereignty. The Norman conquest of Ireland followed, with long centuries of war and devastation.

### SOME NEWS IN BRIEF.

Whitecaps have sent a warning letter to the Rev. Mr. Laros, a Lansford (Pa.) minister, who is at the head of several anti-liquor and reform movements.

A thief rifled the trunks of a dozen or more boarders at the house of Michael Batchner, at Ellwood City, Pa., getting a total of \$470.

At Crescent, W. Va., near Charleston, George Conway shot and killed William Anderson during a quarrel Conway escaped.

The 6-year-old son of Joseph Light, of Greensburg, Pa., who disappeared from his home, was found at Harrisburg, where he is in charge of the Anti-Cruelty society. He will be brought home.

James Crowe and his aged wife, of Corry, Pa., were badly hurt in a struggle with burglars, who fled without getting anything and left behind them two hats and several revolvers.

At Niles, O., Dominick Negasio, an Italian, attacked Mrs. Dominick Infante with a knife, inflicting a gash 14 inches long, from the left shoulder across the back, and another over the face. The woman's condition is critical.

The Pennsylvania conference of the United Brethren Church in Christ at York, Pa., closed. Among the appointments announced by Bishop J. S. Mills were: Meyersdale, F. M. Glenn; Garfield, I. Lovall; New Cumberland, J. L. Grimm.

The laboratory of chemistry and metallurgy, presented by James Gayley to Lafayette college, at Easton, Pa., will be dedicated April 5. In addition to the dedication of the building, the use of the Henry W. Oliver library of chemistry will be begun at that time.

### HOW IT'S BACKED

Undoubted Reliability Expressed In East Liverpool Endorsements.

What you want is home endorsement.

The backing of people you know.

East Liverpool proof for East Liverpool people.

That's what follows here.

Surely no better backing can be had than the following statement from Mrs. Edward Orr, of 220 Thompson street, who says: "My sister, Mrs. Borland, of Pittsburg, while visiting us, recommended Doan's Kidney Pills so highly that I was induced to try them.

I had severe attacks of kidney complaint. Sometimes I was so bad I could not get up. Many times my neighbors came and found me lying on the lounge suffering, when I intended to do a big day's work. I was so miserable I could do nothing. After my sister told me of the pills I made up my mind to try them and got a box at the W. & W. pharmacy. They did just what they claimed they would do—cured me well and sound in a few days. My little girl was feeling poorly and had a sallow complexion for some time. I gave her a few doses and after the treatment she felt splendidly."

## BOSTON TERRIERS RULE THE SHOWS.

These Active, Intelligent Canine Aristocrats Have Everything Their Own Way at Present.

Dog shows have been breaking all records this year in point of number and value of exhibits. While the season of 1901 was a remarkable one in many respects, it has been relegated far to the rear by its successor, and wise is the man who can tell just where it is all going to stop. The recent exhibit in New York of the Westminster Kennel association was by long odds the greatest bench show ever held in this country, and the fortunes

ROGUE, BOSTON TERRIER.

represented by the four footed aristocrats entered in competition would equip a dozen or two Carnegie free libraries.

Every season has its own particular favorites, and, although popularity often extends in different lines in different parts of the country, there is usually some special canine that receives the major part of patronage. At present there is no doubt that the Boston terrier is the reigning favorite in the public eye. This game, picturesque little animal makes a good appearance on the bench, has many attractive traits and is the product of high class breeding, surely a combination that deserves popular attention. The Boston terrier has obtained so lofty a position in the estimation of dog lovers that he is in demand in every locality where show dogs are in vogue, and his value has increased accordingly. In recent large exhibitions he has led the field in numbers by a large majority.

Just at this time it will probably prove of interest to delve into the subject of Boston terriers, giving a few points to breeders and exhibitors on prize winning qualities and describing the characteristics of the animal.

The composite view of the Boston terrier is that of a smooth, short coated, compactly built dog of medium station.

The Boston terrier is a cross between an English terrier and an English bulldog. He is now recognized by the American Kennel club as a distinct breed.

The body, skull, muzzle and tail of the Boston terrier are the most important points to be considered in judging.

The body counts for fifteen points and should be deep and broad at the chest and well ribbed up. In the perfect animal the skull is broad and flat, without prominent cheeks and with the forehead free from wrinkles. The "stop" (the indentation between and below the eyes) should not be too prominent. This terrier was originally produced in Boston, but several transatlantic fanciers state that he is identical with the "butcher's dog" which has been known in England for many years. The latter opinion, however, has not been given much weight.

Remlik Bonnie is considered by many judges to be one of the best Boston terriers ever produced. He is known as the "challenge Boston terrier," because the gauntlet was thrown down on his behalf last December and

outmaneuvered.

The Lady—Did any one call while I was out?

The Maid—No, ma'am.

The Lady—That's very strange. I wonder what people think I have a day "at home" for anyway.—Indianapolis News.

### An Indication of Nervous Trouble.

A headache is simply an indication that some part of the body is deranged, usually the stomach or nervous system. Clinic Headache Wafers cure by relieving those conditions. Never fail. Try them and be convinced. 10 cents at all druggists. They are absolutely harmless. Don't accept a substitute.

REMLIK BONNIE, CHALLENGE BOSTON TERRIER.

directed against any other Boston terrier in America for any amount of money the acceptor of the challenge was willing to name. The challenge has not been accepted to date.

As far as Boston terriers go Remlik Bonnie may be considered handsome. He has a remarkably intelligent face, and the expression in his eyes is almost divine notwithstanding his pug-nacious breed. He took first prize and a special prize of \$100 offered by Mr. T. W. Lawson for the best Boston terrier entered at the Boston dog show last year. He also carried off three first and one special prize at the Providence (R. I.) dog show and three firsts and two specials at the Revere (Mass.) show.

Rogue, owned by the Grove Hill kennels, Beaver Brook, Waltham, Mass., is another famous Boston terrier. He is a prize winner and has been entered in many of the big shows of the season. His markings are remarkably uniform.

## CURES RHEUMATISM.

Stops the Pain and Reduces Swelling Almost Instantly.

Blood Wine Goes About It In A Different Way Begins at the Bottom—Removes the Cause.

"Blood Wine" cures Rheumatism and cures it quickly, thoroughly and permanently. It cures neuralgia, and all forms of aches and pains. Is not Rheumatism caused by uric acid in the blood? This everybody knows. To treat it you must have something to work directly on the blood, to filter it, cleanse and purify it, drive the uric acid out of it and make it so healthy that it can no longer retain again.

"Blood Wine" is a powerful blood remedy. It contains no wine or opiates, but medicine of most extraordinary value. For Rheumatism "Blood Wine" never fails.

Mrs. T. Foster of Salem St., Providence, R. I., was saved from a life of suffering, and given back her health by using "Blood Wine." She says:

"I have used six bottles of 'Blood Wine' for rheumatism and backache, and feel my duty to let you know what your medicine has done for me. I am completely cured and owe my recovery wholly to your 'Blood Wine.'"

MRS. ADDIE FLETCHER.

Mrs. Addie Fletcher of 22 Isabella St., Boston, Mass., has experienced a very wonderful cure of rheumatism of long standing. These are her words:

"I think I ought to write you in regard to my experience with your valuable remedy. I have had rheumatism in my ankle so badly that I have been unable to walk for days at a time, and I was almost discouraged when 'Blood Wine' was recommended to me. I thought I would try one more medicine, and was delighted to find that I gained rapidly while taking one bottle, and now I find myself almost cured after taking four bottles. 'Blood Wine' is invaluable in my household and I heartily recommend it to all."

"Blood Wine" costs fifty cents a bottle, but you can sample it free of charge at Will Reed and Hodson's drug stores.

### NO DOG FIGHT

#### BROOKE COUNTY SHERIFF PROPOSES TO SUPPRESS THE BARBAROUS SPORT.

Sheriff Brown, of Brooke county, will not permit the Mingo barbarians to pull off the dog fight in Brooke county Wednesday afternoon. At least, this is the statement given out from the Wellsburg sheriff's office, where it is proposed to have a number of deputies follow the crowd and as soon as the fight is ready every principal and spectator will be taken into custody.

John Kozoro, a big Hungarian saloonkeeper, admitted being the ring leader in the barbarous acts that are a disgrace to civilization. Kozoro says he has seven dogs penned up in a stable that are being slowly starved to have them in condition for the fight Wednesday afternoon.

Thousands of workmen of all branches of the trade have been pouring into St. Louis for several weeks in the hope of securing employment upon the structures necessary to equip the fair grounds. As a matter of fact no work has as yet been started, and those of the tradesmen who have reached that city are in very bad shape.

Hundreds of the men are in a starving condition, have nowhere to sleep and the circular states take up their headquarters in hallways and vacant buildings. Last Sunday Rev. Taylor Beynard, of St. Louis, preached a sermon upon the subject, concerning every phase of the question. The circular closes with the request that all craftsmen remain away from St. Louis for the present. It is signed by E. O. Layton, president, and H. Blackmore, secretary of the St. Louis district council.

### KRUPP AND ESSEN.

"The old lady," Herr Krupp's mother, managed the small business affairs while Alfred stepped into the shop, rolled up his sleeves, worked all day with his arms and then until midnight with his brain. They lived in a small cottage which is still standing in the factory and which he did not exchange for a better home until long after his marriage. I now quote Mr. Krupp's own words uttered on the twenty-fifth anniversary of the founding of the factory:

"From my fourteenth year I had the care of a family father during the day, added to hard work at the factory, and at night had to study how to overcome the difficulties in the way. During this period I lived on potatoes, bread and coffee and scant portions of meat and toiled until late in the night. For twenty-five years I struggled thus until conditions grew a little easier. My last remembrance of that period is the growing danger of total ruin and my endurance, suffering and hard labor to avert the calamity, and I say all this for the encouragement of young men who have nothing, are nothing and want to get something and be somebody."

In 1832 the factory gave employment to only ten men. At the time of Mr. Krupp's death over 40,000 men were employed in and about Essen, in the factory and the adjoining mines.—Outlook.

### BOOKED FOR A MUSEUM.

She was an ignorant but ambitious woman, relates the Chicago Tribune, and the great ambition of her life was gratified when her husband was elected a member of congress. Immediately after the result of the election was known the new congressman's wife drove in from her country home to the county seat to call in triumph on her dearest enemies in a social way. She called first on the wife of the local banker, who had sent her three daughters through Vassar, and after receiving the congratulations of the family she turned the conversation to her plans for the future of her own daughter, Jennie.

"I am going to give Jennie every educational advantage," she said. "As soon as the congressman and I get to Washington we are going to put Jennie in the Smithsonian institute."

## HUMAN ALARM CLOCKS.

### HOW MESSENGER BOYS ARE UTILIZED AS AWAKENERS IN NEW YORK.

At 1 o'clock the other morning a well dressed man strolled into one of the uptown messenger offices. He had been dining out and evidently, from the rakish tilt to his opera hat, the dinner had been a success.

"I want a messenger boy to come and wake me in the morning."

"What hour?" The clerk was all business, for the request was not unusual.

"Seven o'clock. I've got to catch a train," he explained.

"All right, sir; 7 o'clock," assured the clerk.

The man turned as he was going out of the door. "Have the boy hammer the door hard," he cautioned. "I'm a 'dead one' when I get to sleep, and I've got to catch that train." Then he went home and went to sleep with absolute confidence.

The whistles were blowing 7 o'clock. A small boy in uniform hammered with a club, his "wakener," on the door of the man who had dined the night before. "Get up in there!" he cried. "Get up, you old sleepyhead!"

"You go away from my door," comes in sleepy tones from the room. "It's a mistake. I don't want to get up."

"Oh, yes, you do, my dodo bird," is the fresh reply. And the tattoo on the door goes with redoubled strength.

"All right, boy; I'm awake now!" hollers the man who has been sleeping. "You can go away now."

"Not till you've signed this receipt," the boy insists.

The man has to crawl out of bed and come to the door. The boy has a paper ready, and as he is a careful man he reads before signing. It certifies that he has been thoroughly wakened by Messenger No. 432 and that he is not going back to bed again that day.

"Is this a joke?" he asks the boy.

"Naw, 'tain't no joke," replied the messenger through his teeth. "If we didn't make you do this, you'd be down to do office about noon a-howlin' dat we didn't wake youse. Now, if youse goes back to your bag of feathers, we's got you in black an' white, an' no mistake!"—New York Tribune.

COOKING FISH IN ENGLAND.

### THE METHOD USED THERE RENDERS THE FLESH FLAKY AND JUICY.

John Bull certainly knows how to cook fish, to prove which fact one has only to notice the juiciness and good flavor of the first bit of fish, served perhaps at a little out of the way inn, that one tastes in England. We Americans have at command many fine varieties of fish, but too often find it sent to table in a "woolly," tasteless condition.

An American cousin visiting in an English family made bold to ask what method of cooking "sea food" was prevalent in England and found that there the importance of the thorough cooking of fish as a safeguard against ptomaines is as much regarded as with us. Our old country friends, however, assure us that there is not the slightest occasion to render fish dry and tasteless in order to insure thorough cooking if proper attention is given to basting. One cannot well imagine anything hotter than boiling fat, and laying plentifully with this is to make use of the surest ammunition possible for the routing of deadly bacteria.

Instead of warning amateurs against underdone fish, let copious basting with sweet boiling fat be insisted on, and in place of a woolly, flavorless result there will be the opposite—flakiness and juiciness. Overboiling will produce wooliness as surely as overfrying or baking. To insure tender, solid flakes in, for instance, boiled cod or halibut and to avoid dissipating the flavor make sure the water boils when the fish is put in; keep at a gentle boil; allow only ten minutes to the pound and tie carefully in cheesecloth that has been washed and boiled before using. Cod well basted with hot olive oil or any good fat will be almost gamy in flavor, as will cod steaks cooked in deep fat.—Washington Star.

UNPOETICAL POETS.

Poets are not always poetical. A tale is told in a contemporary of Aubrey de Vere growing ecstatic before Newman over the "sweet pealing of the Oxford chimes" and asked why they rang with so inviting an insistence. "Only young men keeping themselves warm," replied Newman.

Tennyson gave several unexpected answers of the same character. He asked a young lady who had shown herself more enthusiastic than intelligent over the beauties of "Maud" what birds she supposed they were which called "Maud, Maud, Maud!" "Nightengales," said the enthusiast. "No; rocks you —." But the exact vocative is still a matter of discussion.—London Globe.

A WONDER IN PENMANSHIP.

Among the curiosities preserved by the Minnesota Historical society is a lithographed copy of an engrossment of the emancipation proclamation. The engraver, one W. H. Pratt of Davenport, Ia., was so very skillful in his manipulations of the pen that he succeeded, by careful and exact shading of the letters, in producing a very excellent portrait of Abraham Lincoln, the author of the famous document, in the center of the copy. In other words, the lettering itself is made to form a portrait of Mr. Lincoln. There were probably a large number of them originally struck off, but copies of it are now very rare. As a specimen of pen-work it is certainly very unique.

Pastor Now a Grandpa—A daughter has been born to Mr. and Mrs. James Gladden, of Allegheny. Rev. W. H. Gladden, of this city, is grandpa for the first time, and is very proud.

New Pythians—Peabody Lodge, K. of P., at its meeting tonight, will initiate three candidates in the second degree. The lodge is in a flourishing condition and new members are being added at every meeting.

Mormon Elders Depart—The two Mormon elders who have been doing some talking in this city for several months without apparent results, have left for new and perhaps more fertile fields. They have gone to Butler County, O.

Moves to Philadelphia—William Tarr and family will leave tomorrow for Philadelphia, where they will make their future home. Mr. Tarr is the father of Jennie Tarr, the well known actress. She has a year's contract in a Philadelphia theater and this is one reason why her parents are moving there. Mr. Tarr formerly lived in Philadelphia, but has not seen the city for 25 years.

## NO DOG FIGHT

Brooke County Sheriff Proposes to Suppress the Barbarous Sport.

Sheriff Brown, of Brooke county, will not permit the Mingo barbarians to pull off the dog fight in Brooke county Wednesday afternoon. At least, this is the statement given out from the Wellsburg sheriff's office, where it is proposed to have a number of deputies follow the crowd and as soon as the fight is ready every principal and spectator will be taken into custody.

John Kozoro, a big Hungarian saloonkeeper, admitted being the ring leader in the barbarous acts that are a disgrace to civilization. Kozoro says he has seven dogs penned up in a stable that are being slowly starved to have them in condition for the fight Wednesday afternoon.

WOOD IN EGYPTIAN STONWORK. Probably the oldest timber in the world which has been subjected to the use of man is that found in the ancient temples of Egypt in connection with the stonework, which is known to be at least 4,000 years old. This, the only wood used in the construction of the temples, is in the form of ties holding the end of one stone to another. When two blocks were laid in place, an excavation about an inch deep was made in each block, in which a tie shaped like an hourglass is driven. It is therefore very difficult to force any stone from its position.

USELESS EXPENSE. A prince received from the house steward his monthly statement of accounts, in which occurred the item of 1.50 lire for the keep of a cat in the palace. The prince immediately wrote in the margin, "If there are no rats in the house, it is no good keeping a cat; if there are any rats, the charge for the keep of the cat is superfluous." And he struck out the item.

NAMING THE BABY. "Have you named the baby?" asked the admiring neighbor.

"Not yet," said the proud young mother. "We're going to christen him Sunday."

## KRUPP AND ESSEN.

"The old lady," Herr Krupp's mother, managed the small business affairs while Alfred stepped into the shop, rolled up his sleeves, worked all day with his arms and then until midnight with his brain. They lived in a small cottage which is still standing in the factory and which he did not exchange for a better home until long after his marriage. I now quote Mr. Krupp's own words uttered on the twenty-fifth anniversary of the founding of the factory:

"From my fourteenth year I had the care of a family father during the day, added to hard work at the factory, and at night had to study how to overcome the difficulties in the way. During this period I lived on potatoes, bread and coffee and scant portions of meat and toiled until late in the night. For twenty-five years I struggled thus until conditions grew a little easier. My last remembrance of that period is the growing danger of total ruin and my endurance, suffering and hard labor to avert the calamity, and I say all this for the encouragement of young men who have nothing, are nothing and want to get something and be somebody."

In 1832 the factory gave employment to only ten men. At the time of Mr. Krupp's death over 40,000 men were employed in and about Essen, in the factory and the adjoining mines.—Outlook.

## BOOKED FOR A MUSEUM.

She was an ignorant but ambitious woman, relates the Chicago Tribune, and the great ambition of her life was gratified when her husband was elected a member of congress. Immediately after the result of the election was known the new congressman's wife drove in from her country home to the county seat to call in triumph on her dearest enemies in a social way. She called first on the wife of the local banker, who had sent her three daughters through Vassar, and after receiving the congratulations of the family she turned the conversation to her plans for the future of her own daughter, Jennie.

"I am going to give Jennie every educational advantage," she said. "As soon as the congressman and I get to Washington we are going to put Jennie in the Smithsonian institute."

## HUMAN ALARM CLOCKS.

How Messenger Boys Are Utilized in New York.

At 1 o'clock the other morning a well dressed man strolled into one of the downtown messenger offices. He had been dining out and evidently, from the rakish tilt to his opera hat, the dinner had been a success.

"I want a messenger boy to come and waken me in the morning."

"What hour?" The clerk was all business, for the request was not unusual.

"Seven o'clock. I've got to catch a train," he explained.

"All right, sir; 7 o'clock," assured the clerk.

The man turned as he was going out of the door. "Have the boy ringer the door bell," he cautioned. "I'm a dead one when I get to sleep, and I've got to catch that train." Then he went home and went to sleep with absolute confidence.

The whistles were blowing 7 o'clock. A small boy in uniform hammered with club, his "wakener," on the door of the man who had dined the night before. "Get up in there!" he cried. "Get up, you old sleepyhead!"

"You go away from my door," comes in sleepy tones from the room. "It's a mistake. I don't want to get up."

"Oh, yes, you do, my dodo bird," is the fresh reply. And the tattoo on the door goes on with redoubled strength.

"All right, boy; I'm awake now!" howls the man who has been sleeping. "You can go away now."

"Not till you've signed this receipt," the boy insists.

The man has to crawl out of bed and come to the door. The boy has a paper ready, and as he is a careful man he reads before signing. It certifies that he has been thoroughly wakened by Messenger No. 432 and that he is not going back to bed again that day.

"Is this a joke?" he asks the boy.

"Now, tain't no joke," replied the messenger through his teeth. "If we didn't make you do this, you'd be down to do office about noon a-howlin' dat we didn't wake you'n. Now, if you're goin' back to your bag of feathers, we've got you'n in black an' white, an' no mistake!"—New York Tribune.

## COOKING FISH IN ENGLAND.

The Method Used There Renders the Flesh Flaky and Juicy.

John Bull certainly knows how to cook fish, to prove which fact one has only to notice the juiciness and good flavor of the first bit of fish, served perhaps at a little out of the way inn, that one tastes in England. We Americans have at command many fine varieties of fish, but too often find it sent to table in a "woolly," tasteless condition.

An American cousin visiting in an English family made bold to ask what method of cooking "sea food" was prevalent in England and found that there the importance of the thorough cooking of fish as a safeguard against ptomaine is as much regarded as with us. Our old country friends, however, assure us that there is not the slightest occasion to render fish dry and tasteless in order to insure thorough cooking if proper attention is given to basting. One cannot well imagine anything hotter than boiling fat, and laying plentifully with this is to make use of the surest ammunition possible for the routing of deadly bacteria.

Instead of warning amateurs against underdone fish, let copious basting with sweet boiling fat be insisted on, and in place of a woolly, flavorless result there will be the opposite—flakiness and juiciness. Overboiling will produce woolliness as surely as overfrying or baking. To insure tender, solid flakes in, for instance, boiled cod or halibut and to avoid dissipating the flavor make sure the water boils when the fish is put in; keep at a gentle boil; allow only ten minutes to the pound and tie carefully in cheesecloth that has been washed and boiled before using. Cod well basted with hot olive oil or any good fat will be almost gamy in flavor, as will cod steaks cooked in deep fat.—Washington Star.

## UNPOETICAL POETS.

Poets are not always poetical. A tale is told in a contemporary of Aubrey de Vere growing ecstatic before Newman over the "sweet pealing of the Oxford chimes" and asked why they rang with so inviting an insistence. "Only young men keeping themselves warm," replied Newman.

Tennyson gave several unexpected answers of the same character. He asked a young lady who had shown herself more enthusiastic than intelligent over the beauties of "Maud" what birds she supposed they were which called "Maud, Maud, Maud!" "Nightengales," said the enthusiast. "No; roots you—." But the exact vocative is still a matter of discussion.—London Globe.

## A WONDER IN PENMANSHIP.

Among the curiosities preserved by the Minnesota Historical society is a lithographed copy of an engrossment of the emancipation proclamation. The engraver, one W. H. Pratt of Davenport, Ia., was so very skillful in his manipulations of the pen that he succeeded, by careful and exact shading of the letters, in producing a very excellent portrait of Abraham Lincoln, in the center of the copy. In other words, the lettering itself is made to form a portrait of Mr. Lincoln. There were probably a large number of them originally struck off, but copies of it are now very rare. As a specimen of pen-work it is certainly very unique.

## DEMOCRATS LAYING PLANS TO ENTRAP REPUBLICANS

Held a Powwow at City Hall and Seemed to Think They Could Do It.

### HOPEFUL AND ORATORICAL

Fourteen of the Unterrified Met Last Night and Aired Their Scheme.

### HOW TO GET SUPPORTERS

The Problem That Seemed to Worry Most And Which Is Not Yet Solved Speeches Galore Were Made—One Man's Four Orations.

Nothing definite was done at the meeting last night at the city hall by the Democratic central committee, though there were all kinds of calculating as to the intentions of the party regarding the placing of a municipal ticket in the field. Nobody told where the voters were to come from to elect the ticket after it was nominated, but everybody "had hopes." The meeting was decidedly long on hope.

While the attendance was not large—only 14 of the faithful being present—those who were there were unanimous in the opinion that it would be policy to institute a new party and nominate candidates on what is to be known as the citizens' ticket in opposition to the candidates on the Republican ticket.

The meeting was called to order with Ed Cook in the chair and F. P. Williams secretary. Before much progress had been made Mr. Cook had Martin Elliott take his place as chairman so that he could express some of sentiments he had up his sleeve which he thought would be beneficial.

Several times did Mr. Cook address the meeting. He heartily favored the placing of a citizens' ticket in the field and expressed the belief that there were enough "sore" Republicans who would vote for the candidates on the new ticket to elect them.

In one of his speeches Mr. Cook took occasion to jump onto some of the members of the city council. He laid great stress on some of the improvements, which he said, had been made at needless expense, which he termed as being "outrages." "The people are tired of this kind of business," declared the speaker, "and are looking for a chance to retaliate."

It was on this strain that all arguments in favor of the citizens' ticket hinged. Every one of the speakers thought there were enough disgruntled Republicans to boost the new ticket along, though the fact was brought out repeatedly that it should not be forgotten that the Democratic party was the foster father of the new organization.

Walter Cook made a forceful plea, exhorting at great length on the possible disaster that would result to the Republican party in case it was lost in recognition in a scrimmage to get votes on the citizens' ticket.

Dr. George Ikirk made two or three speeches. He thought the citizens' ticket could do business, but admonished his Democratic brethren not to forget that they were Democrats. Jake Weisend made four speeches. He also thought the citizens' ticket could so be brought before the public that politics would undergo needed renovation.

Enthusiasm grew with each utterance favoring the new ticket, and when Ed Cook made his last speech his eloquence fairly dazzled his hearers. J. C. Walsh was present and wanted to make a speech, but when he heard Cook's last effort he thought there was nothing left for him to say and kept quiet.

Various motions were made with various amendments. The secretary finally lumped his notes together and worked out something which read that the citizens' ticket was the real thing and no mistake. Another motion was finally made calling for a mass meeting of citizens on next Friday night.

This was agreed to without a dissenting vote, but one matter that seemed to puzzle the faithful brethren was how to get sufficient interest worked up to insure a good attendance at the meeting. No one seemed to be able to throw light on the proposition, but somebody finally sug-

gested that everybody "whoop'er up," which was considered as being wise, indeed.

With the avowed intention of doing everything possible to induce a large attendance at Friday night's meeting, the motion to adjourn was carried.

It is the purpose to nominate a full ticket if candidates can be induced to make the race.

### Another Deaconess.

The Home Missionary society of the M. E. church has decided to secure another deaconess in place of Miss McDowell, who by reason of the illness of her mother will be unable to return to her duties here. The new deaconess cannot arrive before the 1st of May.

### Treasury Well Filled.

Lisbon, March 11.—(Special)—Conrad Hune and Willis Jordan have filed with the probate judge the report of their examination of the county treasury. They found in the treasury \$64.400.

### DIED SUDDENLY

OLD SOLDIER PASSED AWAY AT HIS EAST END HOME.

Had Been Ill But Was Feeling Better Until Heart Disease Seized Him.

Herman Ecke, aged 53 years, died very suddenly at his home, corner Mulberry and Railroad street, East End, at 12:30 o'clock today. Mr. Ecke had been in the employ of the flint mill for several years and the cause of death was heart disease, induced by the dread "flint consumption."

He had been ailing for some time, but was feeling much better until a few minutes before death occurred. He called for some medicine, lay down and quickly expired. He leaves a wife and two daughters, one of whom is a resident of the East End, Pittsburgh. She has been notified and is expected to arrive tonight.

Mr. Ecke was a member of the G. A. R. post No. 41, of Pittsburgh, and will likely be buried with military honors.

### CROKER ROBBED

WELLSVILLE MAN LOSES HEAVILY BY THIEVES' VISIT.

Cyrus Powell Robbed While He Slept of Watch, Revolver And, \$103.

Cyrus Powell, a grocer at Thirteenth and Commerce street, Wellsville, who lives over his store, last night was robbed of a pocketbook containing \$103 and also of a watch and a revolver. The articles were taken from his clothes while he slept.

The burglars, two in number, not being satisfied, were feeling under Mr. Powell's pillow when he awoke and tried to grapple with them. They got away and the police are hunting them.

### AMALCAMPED DELEGATE

George D. Evans Will Represent Lisbon Lodge at Wheeling Meeting.

Lisbon, March 11.—(Special)—George Drayton Evans has been chosen by the local lodge of the Amalgamated Association as representative to the national convention at Wheeling. Evans has twice before been a delegate to national conventions. He is an acknowledged leader in the association.

As district organizer he played an important part in the organization at Wellsville last summer.

### HEAVY FALL OF ROCK

Came Down Near Street Railway Cars Have So Far Escaped.

Several slips have occurred along the street railway between this city and Wellsville, but fortunately the fall has been at points where traffic on the East Liverpool line was not interfered with.

A huge mass of rock fell at the Brady hollow last evening and alighted not far from the street railway tracks. At other points a number of large slips have occurred, and it is feared banks in close proximity to the railway may come down if the thaw continues.

### VISIT OF THE BOER ENVOYS TO THE UNITED STATES.

Considerable significance attaches to the second visit to this country of Messrs. Wessels and Wolmarans, the Boer envoys. They come ostensibly for the purpose of making arrangements for the judicious and economical distribution of the Boer fund contributed by persons in the United States, but it is said that they really believe Uncle Sam may interfere to stop the war in South Africa.

## FINE WARE BROKEN IN FREIGHT WRECK

### Train Broke In Two and One Part of It Crashed Into the Other.

### CARS IN KINDLING WOOD WANTS TO KILL HIS MOTHER

Three of Them Containing Shipments From Local Potteries Were Ruined With Their Contents—A Bad Accident Near Toronto.

A costly freight wreck occurred on the C. & P. at Toronto at 3 o'clock Sunday morning in which three cars loaded with fine china ware from East Liverpool and Wellsville potteries were badly smashed up and the ware broken.

The wreck occurred on the main line directly opposite the ice plant above Toronto and was caused by the train breaking in two and crashing together when the first section was stopped. The train was running extra as No. 699. Soon after leaving Yellow Creek a coupling broke. The train was stopped and coupled up and when pulling into Toronto it broke a second time.

Through some mistake in signalling the engineer stopped the first section when the rear section crashed into it and three cars were converted into kindling wood and the contents broken and scattered along the tracks. The main line was blocked for several hours and it was late in the afternoon before the wreck was entirely cleared away.

Most of the ware broken was being shipped to western and southern points. The accident attracted a large crowd and hundreds of broken pitchers and dishes were picked up and carried off. All the unbroken ware was gathered up by the railroad people and sent back to Wellsville.

### HEAD BADLY BRUISED

Farmer Seized With Heart Disease Fell in Front of Court House.

Lisbon, March 11.—(Special)—Florance Sherrill, a farmer of Hanover township, who operates a saw mill on his land, was seized suddenly with heart trouble while at the sheriff's sale here yesterday afternoon.

Without a word or a sound he fell backward on the flagstones in front of the court house. He was conscious and seemingly over the attack by the time those beside him could pick him up. His head was badly bruised, but he was able to go home.

### Licensed to Marry.

Lisbon, March 11.—(Special)—A marriage license has been granted to Joseph Lipp and Anna Della Kibler, Unity township.

Milton Rinehart, Steubenville, and Martha Kehrer, Wellsville.

### Uniform Rank Installation.

Inspection and installation of officers of will be held by the Uniform Kank, K. of P., tomorrow evening. Two applicants will be initiated. The work will be in charge of Captain Seleh, of Steubenville.

Arrested Two Suspects.

Disguised as a tramp, Detective Thomas Gibbons, of the Pennsylvania company, accomplished the arrest at Garfield and Sebring of Tom Britton and Bill Burt, who are suspected of robbing freight cars at Garfield. The men will have a hearing at Sebring today.

tate belonging to his ward. Judge Moore is appointed guardian for the suit.

### SHERIFF'S SALE

Farm of 80 Acres Brought \$667—No Bids for a Bowling Alley.

Lisbon, March 11.—(Special)—As a result of the suit of Leonard H. Trunk against Levi Ward, 80 acres of land in Elkrun township were sold by the sheriff yesterday. Emmor Halverstadt purchased the land for \$667, which was 33 cents more than the required two-thirds of the appraised value.

The sheriff also offered for sale the Palace bowling alley in Lisbon. Fearing, perhaps, that hot weather will discourage bowling, no one made a bid. The sale will be advertised again. The suit which brought about the sale is that of Chamberlain, who built the building, against S. J. Todd, one of the proprietors.

### SHOWED A BAD FACE

VICTIM OF STRONG DRINK BADLY WORSTED IN A FIGHT.

Terribly Disfigured When Before the Mayor—Three Fighters Fined.

Two victims of strong drink were taken into the police fold last night. One was Ben Lloyd, who was found in the Diamond by Officer Sallsberry. He was unable to navigate and was placed in jail for safe keeping.

When taken before the mayor this morning Lloyd's face was so terribly disfigured that his honor was fairly startled. While on a spree Sunday night Lloyd got into a fight and came out second best. Both of his eyes were almost swollen shut and so highly colored they looked like a basketful of Easter eggs. He had no money and was discharged.

Ed Garrison was arrested for drunkenness by Patrolman Bryan. He was fined \$1 and costs, which he paid.

Three fighters who were arrested Sunday night appeared before the mayor last night. All pleaded guilty and paid a fine of \$2 and costs each.

### LISBON CITY HALL

Citizens to Vote on Bonding the City \$15,000 to Erect It.

Lisbon, March 11.—(Special)—At an adjourned meeting of the city council last evening it was decided to submit the proposition for a new city hall to the voters on April 7, the day set for the spring election.

The plan discussed at present is to bond the city for \$15,000, this sum to be used for site and building. The alley at the northeast corner of the square running past the present council chamber and village lockup is to be widened by the addition of 24 feet on the west side into a street. The property owners on that side of the alley offer to give 24 feet off the east end of their lots if the council establishes the street. A site for the hall is offered on the east side of the alley for \$3,500 and the council has an option on it.

### STRIKE SETTLED

Miners' Difficulty at Negley Adjusted After Many Months.

Columbus, March 11.—(Special)—President Haskins and Secretary Savage, of the United Mine Workers, returned from Columbian county on Monday and reported that the strike of the miners at Negley, which has been on since last April, has been settled.

The trouble was caused by a disagreement over pay for entry work.

### Garbage Collection.

The committee of council having in charge the garbage question today ordered the Sanitary Reduction company to continue its work until tonight, when it is thought council will take some definite action. The original order was to stop the work last night.

Arrested Two Suspects.

Disguised as a tramp, Detective Thomas Gibbons, of the Pennsylvania company, accomplished the arrest at Garfield and Sebring of Tom Britton and Bill Burt, who are suspected of robbing freight cars at Garfield. The men will have a hearing at Sebring today.

It was the intention of the company to relay the rails on the bridge, but when the order was placed for these rails it was found they could not be delivered before next October. The tracks, however, will be greatly improved, and no expense will be spared to make the line a modern one in every particular.

# FROM THE LAND OF SUNSHINE

A Breezy Letter Telling of the Beauties of Southern California.

## LOCAL PEOPLE OUT THERE

Find Much Enjoyment, Though the Rainy Season Does Not Suit All, Pleasant Transition From Winter Cold to a Floral Paradise.

### Special Correspondence.

Los Angeles, Cal., March 6.—The popular belief that the railroad companies of the country have syndicated on the employment of one Ananias to write the Southern California literature for their advertising departments is a mistaken one. The samples of sunshine flooding my desk, the gently dipping palm just outside the window trying to commune with the rose vine which clammers up the side of the house and the flowers of all kinds and colors filling the air with sweetest fragrance—these show that the man who can justly describe the beauties of this country has not been found. If I could only bring the orange groves, or one of them, from Alhambra or Pasadena or even from the suburbs of Los Angeles, to East Liverpool back doors, I think I would be tempted, however, to take the contract of telling the story as it should be told. Perhaps that egotistical but—blame it on the climate.

Looking back to the time I left East Liverpool I find that nearly three months have elapsed. It does not seem more than a few days, so, I take it, that is a fairly good indication that I have been having a fairly good time, thanks. Stopping off in Chicago and Kansas City was like stepping from a steam room into an ice house. The cars were too hot and the streets—well, to prove I'm not a chronic kicker, the temperature was about 15 below zero there. But that's so long ago I had nearly forgotten it. A month in Denver, during which time I worried the public through the medium of the Denver Post, was a good deal like getting a taste of jam and waiting until the footsteps at the pantry door had died away so the crock could be finished up. It's a long jump from Denver to Colorado, but it's worth taking. Six weeks here have convinced me of that, as the few previous remarks I have made may indicate. One knows he's living when he passes through this rightly named "Gateway of Southern California."

The News Review printed a part of my correspondence to the Cleveland Plain Dealer not long ago, so I won't tell you any more about the East Liverpool people here, except the visitors. Joseph G. Lee, Mrs. Lee and Miss Anna Lee, I. W. Knowles, T. M. Bennett and Mrs. Bennett and Mrs. R. E. Baxter are among those I have met lately. Mrs. Baxter arrived only a few days ago and is staying with Mrs. T. W. Sargent of 1627 Scott avenue. It had been raining for five days before she arrived and it has rained two days since, but the people here wouldn't care if it rained forty days and nights and the ark builders' union was on a strike. Not much, in a country where they have to irrigate. Mrs. Baxter was disgusted with the rain, however, and when I last saw her she had about made up her mind to go on to Frisco and Baywood. The other East Liverpool people are lingering in the best part of the state, though, and that is right here.

It is nice to be remembered by one's friends, and so it was with feelings of joy that I ran through the contents of a box sent me by my old associates in Cleveland. I have not yet been able to fully express my thanks, but hope to through the medium of the Los Angeles Herald, on which I am employed.

FRANK T. SEARIGHT.

### ELECTRIC DENTISTRY

The Pittsburgh Dental Parlors, situated in the Diamond, owned and managed by Dr. J. M. Little, is one of the most complete dental offices of the day. He has fitted his office with the latest electric appliances which enable him with his skilled hand to do the work with considerably less pain to the patient, as well as with more rapidity, which the people at this advanced age demand. The Electric Engine, which all people dread, is one of wonderful pain-saving—saving both in drilling and grinding the teeth. The Electric Water Heater is of great importance also, having at arm's reach tepid or hot water in an instant. The Electric Fans which will be a treat to the doctor as well add to the comfort of his patients. The Fountain Spray spout connected to the chair not only has the crystal glass bowl and sparkling water constantly flowing but has in connection, the Saliva Ejector which carries the saliva from the mouth, permitting the patient to rest in ease, while heretofore it would be constantly running down the throat and causing all the inconvenience imaginable. His office will be lighted with electricity throughout, making everything pleasing to the eye.

Dr. Little's methods in dentistry have won him a very large practice, giving the quickest, easiest and most lasting results, and his efforts to advance will even more be appreciated by all who come to his office, which is opened evenings, for the benefit of those who cannot come during the day.

### UNDER OPTION

Buckeye Plant of Salem Wanted By a Company With \$1,000,000 Capital.

Salem, March 11.—A company of New York and Cleveland capitalists incorporated under the laws of New Jersey, with \$1,000,000 capital stock, has taken an option on the Buckeye Engine company's plant, of this city. The price put upon the plant is said to be \$750,000. Alfred Gould is said to be the leading spirit in the new enterprise.

### MAKING 18-FOOT CUT

C. & P. Trains Will Use the B. & O. Tracks From Ravenna to DeForest.

Warren, March 11.—The Pennsylvania company is making a cut eighteen feet deep between Niles and DeForest. The improvement is necessary for the success of the plan to run Cleveland & Pittsburg trains from Ravenna over the B. & O. to DeForest and thence through the Mahoning valley to Pittsburg.

### Woman's Curiosity.

As good an instance of New York wit as can be found is told about the staff of the Roosevelt hospital. A dangerous operation was being performed upon a woman. Old Dr. A., a quaint German, full of kindly wit and professional enthusiasm, had several younger doctors with him. One of them was administering the ether. He became so interested in the old doctor's work that he withdrew the cone from the patient's nostrils, and she half roused and rose to sitting posture, looking with wild-eyed amazement over the surroundings. It was a critical period, and Dr. A. did not want to be interrupted.

"Lay down, dear, woman," he commanded gruffly. "You have more curiosity than a medical student."

She lay down, and the operation went on.

### The Cobra of India.

Among the true cobras of India the naja is found all over India and Ceylon, Burma, the Andaman Islands, southern China and the Malay peninsula and archipelago. It ascends the Himalayas to an altitude of 8,000 feet. It extends also over Afghanistan and through Persia to the eastern shore of the Caspian. It may attain a length of nearly seven and a half feet, but it is usually not more than a little over five and a half feet long. Najas vary much in color and markings, but have generally the spectacle mark on the back of the neck, which they always distend before making an attack.—Quarterly Review.

## EAST END PROHIBITION ALLIANCE

East End People Meet And Take Steps to Form a Branch.

Desiring to extend temperance work in the East End and in other parts of the city a conference of Prohibitionists was held last evening at the residence of Archie Searight, on Pennsylvania avenue, where it was decided to form a branch of the Prohibition alliance in that part of the city.

The attendance was quite large and it was decided to apply for a charter from the national headquarters, and at a meeting, which will be held within a fortnight, a permanent organization will be formed and officers elected.

During the meeting 56 shares of stock were subscribed for, each share representing \$1.20, making a total of \$67.20 pledged to the work of this alliance. There are quite a number of Prohibitionists in the East End.

### PROGRESS IS MADE

Contractors Said to Be Ready for Work on Chester Branch Extension.

M. J. Kerr, of the firm of Kerr Bros., of the East End, went to Shippingport yesterday to ascertain just what work was being done on the proposed extension of the Cumberland branch from Chester to Monaca. It has been announced that the contract for the grading of this end of the extension has been let to McNally Bros., of Pittsburgh, the same firm which built the extension from Kenlworth to upper Chester. The price per yard has not been ascertained.

While the contract for the eastern end of the extension is also said to have been let some time ago, the name of this contractor has not been learned. The grading is expected to begin as soon as the weather opens

### EAST END AFFAIRS.

Bennie Chafin, of Erie street, is under the care of a physician.

George Anderson, who has been ill for several weeks, is recovering.

Rev. W. E. Hill, of St. George street, is spending the day in Pittsburgh.

Mr. and Mrs. Robert House and Mr. and Mrs. John Pelly of Ralston Crossing, report the birth of sons.

Section Foreman Dennis Hickey and his men this morning commenced cleaning the company property in the vicinity of the Mulberry street station. All the brush is being burned.

Practically all the men who came to the East End last Sunday from the south are working, their friends having secured positions for them before they arrived. Another "bunch" is expected later in the week.

The annual congregational meeting of the members of the Second U. P. church will be held during the latter part of this month. At this session the annual reports of all the officers of the church will be presented to the congregation.

Arrangements are about completed for a doctor to come to Caffinville from the south. It is announced that Alex Chafin has been advised that Dr. Beggs, of Louisa, Ky., expects to locate in the East End and his arrival is expected within a fortnight.

There are other things besides the garbage furnace question that require the attention of the health authorities, now that warm weather is approaching. There are heaps of garbage about the city that have neither been buried nor burned and for the disposal of which no provision has been made. A most amusing case is apparent at the lower end of Third street. There, within a few feet of a sign placed by the health board, saying "You will be prosecuted for dumping garbage here," is a heap of refuse nearly as high as the sign itself—some of it recently dumped there, unless indications are misleading. If anybody has been prosecuted for dumping garbage anywhere, the fact has not been reported. Certainly residents of the Third street neighborhood have not been inspired with any terror by the board of health threats, and it is doubtful if anybody has. The condition of some of these garbage dumps is disgraceful to the city, as well as a standing menace to the public health. It is high time action were taken and something more than sign-board notices relied upon to compel those who are constantly violating and defying the ordinances of the city to cease creating nuisances. Will the board of health act, or continue a do-nothing policy until the city pays the penalty for its neglect with some deadly epidemic?

Brigadier General Frederick Funston, who certainly knows what he is talking about, said in a recent address, speaking of the American soldiers in the Philippines: "I say unhesitatingly that all those who have died since January, 1900, have died not because the Filipinos had much heart for continuing the fight, but because they were sustained by a lot of misguided and misinformed persons here in the United States." His opinion coincides with that of army officers generally who have been in the Philippines. Will the jawsmiths and the anti-Americans at home never realize the enormity of the offense of which they are guilty and keep quiet?

Relying on Republican assistance which they will not get will not save East Liverpool Democrats from their usual fate at the spring election. The number of Republicans in this city who desire to be reckoned as Democratic coadjutors has not been increasing, but diminishing of late.

The muddy condition of the streets of Youngstown, according to a dispatch from that city, has called forth many protests, and Miss Essie Stewart has offered to take charge of the

street cleaning department and place the streets in passable condition. She asserts that as the men have failed to clean the streets the women should have a chance. East Liverpool is crowded, but if Miss Stewart desires to move here and pursue the same line of work she can safely be guaranteed accommodations.

The Ohio legislature will begin hearings on the municipal code bill this week. The measure is an important one and has a strong backing. The legislature will act wisely in giving it due consideration, learning the sentiment of the state on the question, and acting accordingly.

Where are the East Liverpool Republicans who desire to be counted as assistant Democrats? There is to be an invitation extended to them to come out and show themselves. Nobody save those who will be disappointed is looking for a numerous response.

Democrats who are looking for disension or lack of harmony in the ranks of East Liverpool Republicans are looking for something that does not exist save in their own fertile imaginations.

Some stronger plea than that they want the offices must be presented by the Democrats before they can induce Republicans to join them.

Democrats are famous for building their hopes high without a foundation. That habit causes many a dizzy fall.

Lebe wohl, Hohenzollern! Come back when you want to be shown another good time.

At all events, Secretary Long did not quit the cabinet under fire.

## OBITUARY

**Mrs. William Bailey.**  
Mrs. William Bailey, nee Nellie Speight, died at her home, 254 Sixth street, last evening from an attack of typhoid malaria. She was 27 years of age and had been married less than two years. Her husband, William Bailey, has been employed at the Thomas pottery, Lisbon, and was absent from home when his wife's death occurred. Mrs. Bailey had been a member of the Second M. E. church for many years, and was respected and esteemed by all. The funeral will be held from the late home at 2 o'clock tomorrow afternoon, Rev. G. W. Orcutt, of the Second M. E. church, officiating. The remains may be viewed from 8 to 9 o'clock tonight and from 9 to 11 tomorrow morning.

**Mrs. Sadie Hulme.**

Mrs. Sadie Hulme, wife of William Hulme, and daughter of Mrs. Emeline Hamilton, of Mulberry street, died at her home in Sebring yesterday morning of puerperal fever. She had been ill but a few weeks. She is survived by her husband and a babe three months old. The remains arrived in the East End at noon today and the funeral services will be private on Thursday afternoon at 2 p. m. from Mrs. Hamilton's residence. The remains can be viewed from 10 to 12 Thursday morning.

**Charles Begg.**

Lisbon, March 11.—(Special)—The remains of Charles Begg arrived here today from Aurora, Ill., where he had been living for some years. A message was received yesterday by this aunts, the Misses Thompson, of this city, stating that he had died suddenly and would be buried at Lisbon. The funeral arrangements are not yet made. Mr. Begg formerly resided here and was about 38 years of age.

**\$100,000 Fire at Canton, O.**

Canton, O., March 11.—Fire in the Novelty Iron Works plant ruined the foundry and pattern house, causing a loss of \$100,000. The plant was crowded with orders for six months and 200 men are idle. Insurance, \$50,000. The plant will be rebuilt.

**WEATHER FORECAST.**

Ohio—Cloudy today, probably rain. Tomorrow colder, with fair in south and rain in north portion; brisk south winds.

Western Pennsylvania—Increasing cloudiness today, probably rain by night and tomorrow; brisk south winds.

West Virginia—Increasing cloudiness today, probably rain in west portion. Tomorrow rain, with colder in west portion; south winds.

Miss Ada Knox, of the decorating department at the Goodwin, has returned to the city from a visit with relatives at Steubenville.

Charles Surles, of the McNicol, left yesterday for an extended trip through the northwest. He will be gone probably two months.

Daniel Daley, a former filler for Harry Deitz, has been unable to work for several days on account of illness.

John Herron, a batter-out at Laughlin No. 2, is ill at his home on Wall street, threatened with fever.

The Crown Pottery company, recently organized at Peoria, is expected to

## POTTERY NEWS

The acceptance of yearly contracts at 70 off the C. C. list when the associated manufacturers' regular discount is 60 off, has created comment among pottery manufacturers, and there is strong feeling against the Union Potteries company and a few other firms such as the Ford China company of Ford City, Pa., and the Wick China company, of Kittanning, Pa., who are doing the cutting, says a trade journal. The cutting, some think, would not be so bad if it was only temporary, but guaranteeing to sell at that price for a year makes the manufacturers angry. Of course it is insisted upon by some pottery people that the ware produced by these firms is not nearly up to the standard, but nevertheless their price-cutting and guarantees are affecting the market and are making it uncomfortable for others who have been holding to the original prices agreed upon.

Eugene Bradshaw, of the Niles pottery, who has been in the city for several days, left yesterday for Chicago on a business trip. Theodore Bradshaw, who came here Saturday evening, has returned to Niles. Before leaving he stated the plant will be put in operation as soon as possible. Some coal has been received within the last few days, and this will help matters considerably.

The new Brighton pottery company will be incorporated with a capital stock of \$25,000. The company paid \$13,000 for the plant and will have \$12,000 with which to begin business.

The company is composed of New Brighton and Beaver Falls parties, some taking active part in the business. They propose to make dinner tea and specialties in thin semi-porcelain.

Jean Jester, who has charge of the putting in of machinery at the Barberon pottery, has been in the city for several days. He returned to Barberon this morning. Mr. Jester stated the plant would not be ready for operation before June 1.

John Johnson, manager of the T. and R. Boot potteries, of Burslem, Eng., arrived in this city Sunday evening having come to New York on the steamer Bremen, Saturday. He is stopping with friends on Lincoln avenue.

Arrangements are being made to play a game of football between the Buckeyes and Laughlin No. 2 for the benefit of Mr. Judge, who was injured in a game several weeks ago, and who has since been unable to work.

The East Liverpool Potteries company has received an order for a piece of sanitary ware of new design for a Pittsburgh hospital. The mould is now ready, and the shape will be put through at the East Liverpool.

B. Rhead, representing the Thomas Hulme company, of Hanley, England, is in the city. He is taking up the work of the late James Clarke, whose sudden death was noted in this paper several weeks ago.

The Wolff Manufacturing company of Chicago, owners of the Monument pottery, has consulted an architect relative to the drawing of plans for an extensive addition to the Trenton plant.

Work was resumed at the Diamond yesterday, and within a few days the factory will be in full operation. A kiln kiln was drawn yesterday, and all the kilnmen are at work.

Harry Forster, a glider at Laughlin No. 2, will gild the ball with which the association football team representing that plant won a victory from the Buckeyes last Saturday.

The Taylor, Smith & Taylor has engaged J. A. Knorr as a traveler, and he started west yesterday. Mr. Knorr was formerly buyer for Hoyt & Sefton, of Cleveland.

J. B. Owens company, of Zanesville, has secured temporary quarters and will at once begin the manufacture of art ware. The plant was burned a few days ago.

Turners' and Handlers' No. 10 met last evening and talked about convention resolutions.

F. F. Debolt, a local salesman left yesterday for a short trip through Ohio.

The Potters' Exchange meets this evening.

## AT THE THEATER

The principal dramatic novelty of the current season is the production of the new play by Hal Reid, "At the Old Cross Roads." The story that it reveals is highly dramatic; the situations and climaxes thrilling in the extreme, but the whole is so happily blended with comedy scenes and incidents as to charm all. Another important factor in a play of this character is the fact that it affords unlimited opportunities for an especially beautiful toilette display by the feminine portion of the company. "At the Old Cross Roads" will be presented here for the first time on Monday, March 17, under the auspices of the ushers of the Grand.

The Davidson Stock company opened a week's engagement at the Grand last evening in the presentation of "Sheridan Keene, Detective," to a large house. Tonight the company presents "O'Flynn in Mexico."

## A VACANCY DECLARED

J. F. RUSSELL DROPPED FROM REPUBLICAN TICKET.

He Has Left Town—Primaries to Choose Candidate for Water Works Trustee.

The Republican central committee men held a meeting in the city hall last evening for the express purpose of taking action upon the prolonged absence of J. F. Russell from the city. At the recent city primary election Russell was nominated as a candidate for the office of water works trustee. Immediately after being nominated he left the city and as yet has not been heard from, and no one seems to know where he is located.

Russell came to Wellsville two years ago and for a time was very popular with every one with whom he came in contact with, in fact he was styled by all "a jolly, good fellow." It takes money and lots of it to be "a good fellow," and Russell, it is pretty well understood, did not have the necessary amount, in consequence of which he was deeply in debt. Immediately upon being nominated for the city office his creditors began to push him and found to their sorrow that they could not collect.

If the tales told by many citizens are true no man in Wellsville ever succeeded in landing so many victims.

Russell was in the employment of the Ohio Valley Gas company and received a good salary. The company, it seems, became uneasy and discharged him about three weeks ago. It was at that time that he left the city.

Ely Taylor, secretary of the committee, stated to the other members that he had inquired at the gas office and found that Russell was discharged, had left the city and no traces of him had been found. All having been informed likewise a motion by Taylor that the name of J. F. Russell be stricken from the ticket and the office be declared vacant received an immediate second and was passed without a dissenting vote.

A motion was then passed that another primary election be held next Saturday between the hours of 1 and 7 p. m. for the purpose of nominating a candidate for water works trustee.

The motion, however, was made so that only the three candidates who were not successful at the first primary, can be voted upon. These candidates are Emmet Gerren, Thomas Johnston and Lon Phillips. Their names will appear on the ticket as they are above given.

## BROKE HIS RIBS

**A Huge Piece of Timber Strikes Henry Chapman at the Railroad Shops.**

A huge piece of timber unexpectedly falling in the carpenter department of the railroad shops was the cause of a painful accident to Henry Chapman.

The timber struck him on his left side and fractured several ribs. As a result he will be unfit for duty for weeks. His misfortune is deplored, as he is married and has a family.

### Banquet Tonight.

Collided at a Crossing.

Ironton, O., March 11.—A Norfolk and Western freight and a Cincinnati, Hamilton and Dayton mail train collided on a crossing here yesterday, the engines side-swiping each other.

The crews jumped and escaped, except Mail Agent W. T. Stewart, who was imprisoned in the overturned mail car. The wreck caught fire and the fire department was called out.

Stewart wrenched a door off and leaped from the car. He was badly bruised.

All the mail burned.

Blondin Indicted For Murder.

Cambridge, Mass., March 11.—The grand jury of Middlesex county yesterday reported an indictment on four counts against Joseph Wilfrid Blondin, alias Joseph Barnard, charging him with the murder of Margaret Emma Blondin, his wife. Blondin is under arrest in New York.

Naturally those persons of wealth and fashion who are thus put outside the social pale by the dictum of the reverend gentleman are filled with anger and denounce him in most uncomplimentary terms. The fact that he named but two families in Chicago as being worthy a place in his list has raised a storm of indignation in the social circles of that metropolis. Other cities, however, fare no better at the Rev. Dr. Nichols' hands.

New Yorkers recall the Rev. Charles Wilbur de Lyon Nichols as the picturesque young assistant rector of St. Luke's Episcopal church, who dodged serious charges on which he was summoned before Bishop Potter by sending a rambling letter stating that he had joined the Catholic church.

Many policemen who served in the New York Tenderloin and frequented restaurants in that district are said to remember him as the man who wore a purple cord about his neck, to which was attached a silver crucifix, and whose ecclesiastical dress was sometimes conspicuous because of his surroundings.

After forsaking the Episcopal church he disappeared from New York.

**TRUST LAWS VOID.**

**U. S. Supreme Court Finds Illinois Act to Combat Combinations Unconstitutional.**

**LAWS OF 13 STATES ILLEGAL.**

This Because Agricultural Products Were Not Included—Suit of Government Against Northern Securities Company Filed.

Washington, March 11.—The United States supreme court yesterday decided the Illinois' anti-trust statute to be unconstitutional because of the provision of the law exempting agricultural products and live stock from the operations of the law. The decision was rendered in the case of Thomas Connally and others against the Union Sewer Pipe company, of Ohio, and was delivered by Justice Harlan.

The decision of the court in effect declares unconstitutional the anti-trust laws of Georgia, Illinois, Indiana, Louisiana, Michigan, Mississippi, Montana, Nebraska, North Carolina, South Dakota, Tennessee, Texas and Wisconsin.

In each of these states there is an exemption in favor of live stock and agricultural products in the hands of the raiser or producer, or of labor organizations. Under the rulings of the court, an anti-trust law, to be constitutional, must apply indiscriminately to all combinations, with no exemptions or exceptions whatever.

Justice McKenna dissented.

St. Paul, March 11.—By direction of the attorney general of the United States a bill in equity was filed here yesterday in the circuit court of the United States for the district of Minnesota, in the case of the United States, complainant, against the Northern Securities company, the Great Northern Railway company, the Northern Pacific Railway company and others, defendants, to test the legality of the alleged combination or merger of the two roads and others named in the bill. The action is brought under the act of July 2, 1890, known as the Sherman anti-trust act.

**CEN. METHUEN IS CAPTURED.**

Taken by Delarey—41 British Killed, 77 Wounded and 201 Missing.

London, March 11.—It was announced yesterday that General Lord Methuen and four guns had been captured by the Boers commanded by General Delarey. The news came like a thunderbolt to London. The extra editions of the evening papers giving an account of the disaster were eagerly bought up and their readers hurried through the streets with anxious faces and bitter remarks were passed on the subject of the government's declaration that the war in South Africa was over.

The news was received in the house of commons amid great excitement. The reading of Lord Kitchener's telegram by the war secretary, Mr. Brodrick, was listened to in deep silence, which was broken by loud Irish cheers. Instantly there were cries of "Shame," "Shame," from the government benches. Then the Irish members seemed to think better of their outbreak and suddenly subsided. The subsequent eulogistic references to General Methuen were received with cheers.

In brief, Lord Kitchener announced that when General Methuen was captured, with four guns, three British officers and 38 men were killed and five officers and 72 men were wounded. In addition one officer and 200 men were reported missing.

Lord Roberts announced the defeat in the house of lords. He praised Methuen, as did Premier Salisbury. They and other speakers suggested suspension of judgment until more

**HIRERS OF LABOR AND THEIR DUTY**

By United States Senator MARK A. HANNA

AM ONE OF THOSE WHO HAVE ARRIVED AT THE CONCLUSION THAT THE HIRERS OF LABOR HAVE A DUTY TO PERFORM AS WELL AS THE LABORERS HAVING A DUTY TO PERFORM TO THEIR EMPLOYERS. I ask business men—

aye, I plead with them—to pause in the middle of their daily avocations and think if there is not something they can do to better the conditions of their fellow men. The wealth from our industries is all lost if we don't use it to help everybody.

It was this thought that brought the feeling to me that the time had arrived when a better feeling should exist between the employer and the employee.

**I FEEL THAT THE ORGANIZERS OF WORKINGMEN ARE WORKING EARNESTLY AND HONESTLY TO IMPROVE LABOR CONDITIONS. IT IS TO GREAT ORGANIZATIONS OF BUSINESS MEN THAT WE LOOK FOR CO-OPERATION, AND NOT ONLY THAT, BUT SYMPATHY AND ACTIVE SUPPORT.**

details were received. Lord Roberts, in his speech said that from Delarey's conduct through the war Methuen would be well treated.

The feeling of depression in the lobbies of the house of commons over the news of the disaster in South Africa were very marked. The service members of the house expressed the opinion that it will necessitate sending fresh troops to the front, while the belief was widely expressed that the Boers will not fail to take advantage of General Methuen's prominence to hold him as a hostage for the safety of Commandant Kritzinger and other Boer leaders now in the hands of the British.

**CORONERS STOPPED FUNERAL.**

**Alleged That Girl Died of a Criminal Operation.**

Upper Sandusky, O., March 11.—Coroner Stutz, of Wyandot county, and Coroner Ramroth, of Marion county, yesterday stopped the funeral of Miss Hite, at Brush Ridge, and took charge of the body and began holding an inquest. It is alleged that two physicians are the cause of the girl's death, which, it is claimed, resulted from a criminal operation.

**ARTISTS' BLUNDERS.**

**Some Odd Mistakes That Have Been Perpetrated on Canvas.**

In a letter from an artist and art writer of London he speaks of the absurd mistakes made by some of the old masters. In the very pretentious and also very large portrait of Queen Victoria executed by Benjamin Constant the well known French artist painted the ribbon of the Order of the Garter of a wrong color, and the artist was much chagrined by the evidence of his own carelessness. Queen Victoria told him he was using the wrong color, but he was not convinced.

There is a landscape by a famous English painter in which rainbow is depicted behind the sun, and a picture of Eden is in the gallery of the Gesu, in Lisbon, where Adam and Eve are represented as watching a procession of monks.

In the famous galleries of Antwerp are certain pictures by old masters in which the jumble of ideas is as remarkable as the technique is fine. In one picture of heaven the archangels are armed with bows and arrows, and in painting of the "Murder of the Innocents" the massacre is represented as taking place in a city of Holland. The parents of the children are stout burghers, the Roman soldiers are Dutch policemen armed with muskets, and the innocent infants are transformed into solid schoolboys in bulgy trousers and jackets and hobnailed shoes. The effect is droll.

**Things He Didn't Understand.**

At the table on an incoming liner on a recent trip one of the first cabin passengers found in an oyster one of the tiny seed pearls which look almost exactly like bird shot. Apparently the formation of pearls was a mystery to him, for he examined the thing curiously, picked it up gingerly and laid it on the tablecloth for further investigation.

Now, it is a habit of cooks at sea to carry fishhooks in their pockets, and on this trip, by a curious coincidence, part of a small hook got caught in a piece of beefsteak that was served to this particular passenger. As soon as his knife encountered the hard object he started, picked it out carefully and laid it beside his other find on the cloth.

Then he beckoned to the waiter and confidentially whispered in his ear, "I don't want to be impudent," he said, "but would you mind telling me where you shoot your oysters and why you catch your steaks with a hook and line?"—New York Post.

## FIVE IN ONE GRAVE.

Children Perished In a Fire, In Shinshoole, Delaware County, New York.

## ALL IN ONE LARGE COFFIN.

Sad Contents of a Telegram Received at Binghamton, N. Y.—Mother and Nine Children Perished In a Fire, In Canada.

Binghamton, N. Y., March 10.—"Dig one large grave; children all dead."

So reads a telegram received yesterday by his sister in this city, from Thomas Scanlon, whose five children were burned to death at Shinshoole, Delaware county, Sunday night. They were:

Mary, aged 13.

Thomas, aged 13.

Nellie, aged 8.

Dennie, aged 4.

Michael, aged 2.

The bodies will be brought here in one large coffin, for burial today.

### Ten Victims of a Fire.

Matane, Que., March 11.—Fire which originated in the kitchen of the residence of Arthur Bouchard, Sunday, caused the death of Mrs. Bouchard and nine children.

## RURAL DELIVERY BILL PASSED.

Measure Amended by Opponents Until Its Purpose Was Changed.

### Carriers or Salaries.

Washington, March 11.—The bill to classify the rural free delivery service and place the carriers under the contract system, which has been debated in the house for over a week, was passed yesterday, but in a form that completely changed the purpose for which it was framed. Before it was passed the bill was altered radically by its opponents. All the provisions relating to the placing of carriers under the contract system were stricken out, and the salary system not only was continued, but the maximum salary of carriers was increased from \$500 to \$600 per annum. A motion offered by Mr. Williams (Dem., Ills.) to recommit the bill, with instructions to report back an amendment providing for the dismissal from the service of carriers who should use their influence in favor of any particular party or for any particular candidate was voted down—96 to 141.

As passed, the bill classifies the rural free delivery service and fixes the compensation of employees as follows: Special agents in charge of divisions, not exceeding \$2,400 per annum; special agents, four classes, graded from \$1,300 to \$1,600; route inspectors, four classes, graded from \$900 to \$1,200; clerks, four classes, from \$900 to \$1,200. The compensation of carriers is not to exceed \$600. Today the postoffice appropriation bill will be considered.

## GERMAN-VENEZUELAN DISPUTE.

The Affair Reported to Be Nearing a Settlement.

Berlin, March 11.—The dispute between Germany and Venezuela is nearing a settlement. The terms of this settlement are as yet a foreign office secret. They are however satisfactory to Germany, and Venezuela has apparently yielded without Germany's having made any direct threat or having had to do anything like sending an ultimatum.

It is believed that as a last condition prior to his acceptance of Germany's requests, the President of Venezuela, Gen. Castro said he could not submit easily to these requests while a German fleet was anchored in his principal harbor. Consequently the German squadron at La Guayra is now disengaging. The flagship of the squadron, the cruiser Vineta, has been ordered to the coasts of Colombia, Costa Rica and Nicaragua, the cruiser Falke will ascend the Amazon and the only vessel to remain is La Gazelle.

## HOTEL NOT EQUIPPED RIGHT.

Coroner's Jury Agreed Fire Was Communicated From Armory.

New York, March 11.—The coroner's jury, which has been investigating the Park Avenue hotel fire in this city on Feb. 22, agreed on a verdict yesterday declaring that the fire was communicated to the hotel by sparks from the Seventy-first regiment armory, across the street.

The armory was almost entirely destroyed by fire. The jury found that the hotel was not properly equipped for the safety of guests and occupants in that there was no standpipe provided for the use of the fire department and that there were no ropes or fire escapes.

## IRISH DELIGHT AT DEFEAT.

Rosebery Said It Demonstrated Impossibility of Home Rule.

Glasgow, March 11.—Lord Rosebery spoke before a crowded meeting at St. Andrew's hall last night. He referred, in part, to the Irish demonstration in the house of commons yesterday, when the reading of Lord Kitchener's telegram announcing the capture of General Methuen was greeted by loud Irish cheers, as a

## BOSTON TERRIERS RULE THE SHOWS.

These Active, Intelligent Canine Aristocrats Have Everything Their Own Way at Present.

Dog shows have been breaking all records this year in point of number and value of exhibits. While the season of 1901 was a remarkable one in many respects, it has been relegated far to the rear by its successor, and wise is the man who can tell just where it is all going to stop. The recent exhibit in New York of the Westminster Kennel association was by long odds the greatest bench show ever held in this country, and the fortunes

represented by the four footed aristocrats entered in competition would equip a dozen or two Carnegie free libraries.

Every season has its own particular favorites, and, although popularity oftentimes extends in different lines in different parts of the country, there is usually some special canine that receives the major part of patronage. At present there is no doubt that the Boston terrier is the reigning favorite in the public eye. This game, picturesque little animal makes a good appearance on the bench, has many attractive traits and is the product of high class breeding, surely a combination that deserves popular attention. The Boston terrier has obtained so lofty a position in the estimation of dog lovers that he is in demand in every locality where show dogs are in vogue, and his value has increased accordingly. In recent large exhibitions he has led the field in numbers by a large majority.

Just at this time it will probably prove of interest to delve into the subject of Boston terriers, giving a few points to breeders and exhibitors on prize winning qualities and describing the characteristics of the animal.

The composite view of the Boston terrier is that of a smooth, short coated, compactly built dog of medium station.

The Boston terrier is a cross between an English terrier and an English bulldog. He is now recognized by the American Kennel club as a distinct breed.

The body, skull, muzzle and tail of the Boston terrier are the most important points to be considered in judging.

The body counts for fifteen points and should be deep and broad at the chest and well ribbed up. In the perfect animal the skull is broad and flat, without prominent cheeks and with the forehead free from wrinkles. The "stop" (the indentation between and below the eyes) should not be too prominent. This terrier was originally produced in Boston, but several transatlantic fanciers state that he is identical with the "butcher's dog" which has been known in England for many years. The latter opinion, however, has not been given much weight.

Remlik Bonnie is considered by many judges to be one of the best Boston terriers ever produced. He is known as the "challenge Boston terrier," because the gauntlet was thrown down on his behalf last December and

REMLIK BONNIE, CHALLENGE BOSTON TERRIER.

directed against any other Boston terrier in America for any amount of money the acceptor of the challenge was willing to name. The challenge has not been accepted to date.

As far as Boston terriers go Remlik Bonnie may be considered handsome. He has a remarkably intelligent face, and the expression in his eyes is almost divine notwithstanding his pug-nacious breed. He took first prize and a special prize of \$100 offered by Mr. T. W. Lawson for the best Boston terrier entered at the Boston dog show last year. He also carried off three first and one special prize at the Providence (R. I.) dog show and three firsts and two specials at the Revere (Mass.) show.

Rogue, owned by the Grove Hill kennels, Beaver Brook, Waltham, Mass., is another famous Boston terrier. He is a prize winner and has been entered in many of the big shows of the season. His markings are remarkably uniform.

## CURES RHEUMATISM.

Stops the Pain and Reduces Swelling Almost Instantly.

**Blood Wine Goes About It In A Different Way Begins at the Bottom Removes the Cause.**

"Blood Wine" cures Rheumatism and cures it quickly, thoroughly and permanently. It cures neuralgia, and all forms of aches and pains. Is not Rheumatism caused by uric acid in the blood? This everybody knows. To treat it you must have something to work directly on the blood, to filter it, cleanse and purify it, drive the uric acid out of it and make it so healthy that it or any other foreign matter will not return again.

"Blood Wine" is a powerful blood remedy, hence an effective rheumatic cure. It contains no wine or opiates, but medicine of most extraordinary value. For Rheumatism "Blood Wine" never fails.

Mrs. T. Foster of Salem St., Providence, R. I., was saved from a life of suffering, and given back her health by using "Blood Wine." She says;

"I have used six bottles of 'Blood Wine' for rheumatism and backache, and feel it my duty to let you know what your medicine has done for me. I am completely cured and owe my recovery wholly to your 'Blood Wine.'"

Mrs. Addie Fletcher.

Mrs. Addie Fletcher of 22 Isabella St., Boston, Mass., has experienced a very wonderful cure of rheumatism of long standing. These are her words:

"I think I ought to write you in regard to my experience with your valuable remedy. I have had rheumatism in my ankle so badly that I have been unable to walk for days at a time, and I was almost dis-

couraged when 'Blood Wine' was recom-

mended to me. I thought I would try

one more medicine, and was delighted to

find that I gained rapidly while taking

one bottle, and now I find myself almost

cured after taking four bottles. 'Blood

Wine' is invaluable in my household and I heartily recommend it to all."

"Blood Wine" costs fifty cents a bottle, but you can sample it free of charge at Will Reed and Hodson's drug stores.

### HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

To Entertain Thursday—Mrs. Lizzie Vodrey will entertain friends informally Thursday afternoon.

Invitations Issued—Miss Margaret Litten has issued invitations for Thursday evening, March 13.

Spring Vacation—The spring vacation in the city schools will commence on Monday, March 31, and continue until Monday, April 7.

Quarterly Conference Tonight—Dr. C. E. Manchester will be present tonight at the First M. E. church to preside at the second quarterly conference.

Pastor Now a Grandpa—A daughter has been born to Mr. and Mrs. James Gladden, of Allegheny. Rev. W. H. Gladden, of this city, is grandpa for the first time, and is very proud.

New Pythians—Peabody Lodge, K. of P., at its meeting tonight, will initiate three candidates in the second degree. The lodge is in a flourishing condition and new members are being added at every meeting.

Mormon Elders Depart—The two Mormon elders who have been doing some talking in this city for several months without apparent results, have left for new and perhaps more fertile fields. They have gone to Butler county, O.

Moves to Philadelphia—William Tarr and family will leave tomorrow for Philadelphia, where they will make their future home. Mr. Tarr is the father of Jennie Tarr, the well known actress. She has a year's contract in a Philadelphia theater and this is one reason why her parents are moving there. Mr. Tarr formerly lived in Philadelphia, but has not seen the city for 25 years.

### ADVICE TO CARPENTERS

Those Who Have Gone to St. Louis to Get Rich Find Disappointment.

A circular was received by Secretary Newell, of the carpenters' union yesterday, the contents of which will be of interest, not only to the members of his own craft, but to other building tradesmen as well.

The document is being sent to every local union in the country and was issued by the district council of the St. Louis carpenters' union.

Thousands of workmen of all branches of the trade have been pouring into St. Louis for several weeks in the hope of securing employment upon the structures necessary to equip the fair grounds. As a matter of fact no work has as yet been started, and those of the tradesmen who have reached that city are in very bad shape.

Hundreds of the men are in a starving condition, have nowhere to sleep and the circular states take up their headquarters in hallways and vacant buildings. Last Sunday Rev Taylor, Beynard, of St. Louis, preached a sermon upon the subject, concerning every phase of the question.

The circular closes with the request that all craftsmen remain away from St. Louis for the present. It is signed by E. O. Layton, president, and H. Blackmore, secretary of the St. Louis district council.

### NO DOG FIGHT

Brooke County Sheriff Proposes to Suppress the Barbarous Sport.

Sheriff Brown, of Brooke county, will not permit the Mingo barbarians to pull off the dog fight in Brooke county Wednesday afternoon. At least, this is the statement given out from the Wellsburg sheriff's office, where it is proposed to have a number of deputies follow the crowd and as soon as the fight is ready every principal and spectator will be taken into custody.

John Kozoro, a big Hungarian saloonkeeper, admitted being the ring leader in the barbarous acts that are a disgrace to civilization. Kozoro says he has seven dogs penned up in a stable that are being slowly starved to have them in condition for the fight Wednesday afternoon.

#### Wood In Egyptian Stonework.

Probably the oldest timber in the world which has been subjected to the use of man is that found in the ancient temples of Egypt in connection with the stonework, which is known to be at least 4,000 years old. This, the only wood used in the construction of the temples, is in the form of ties holding the end of one stone to another. When two blocks were laid in place, an excavation about an inch deep was made in each block, in which the tie shaped like an hourglass is driven. It is therefore very difficult to force any stone from its position.

#### Useless Expense.

A prince received from the house steward his monthly statement of accounts, in which occurred the item of 1.50 lire for the keep of a cat in the palace. The prince immediately wrote in the margin, "If there are no rats in the house, it is no good keeping a cat; if there are any rats, the charge for the keep of the cat is superfluous." And he struck out the item.

Krapp and Essen.

"The old lady," Herr Krapp's mother, managed the small business affairs while Alfred stepped into the shop, rolled up his sleeves, worked all day with his arms and then until midnight with his brain. They lived in a small cottage which is still standing in the factory and which he did not exchange for a better home until long after his marriage. I now quote Mr. Krapp's own words uttered on the twenty-fifth anniversary of the founding of the factory:

"From my fourteenth year I had the care of a family father during the day, added to hard work at the factory, and at night had to study how to overcome the difficulties in the way. During this period I lived on potatoes, bread and coffee and scant portions of meat and toiled until late in the night. For twenty-five years I struggled thus until conditions grew a little easier. My last remembrance of that period is the growing danger of total ruin and my endurance, suffering and hard labor to avert the calamity, and I say all this for the encouragement of young men who have nothing, are nothing and want to get something and be somebody."

In 1882 the factory gave employment to only ten men. At the time of Mr. Krapp's death over 40,000 men were employed in and about Essen, in the factory and the adjoining mines.—Outlook.

#### Booked For a Museum.

She was an ignorant but ambitious woman, relates the Chicago Tribune, and the great ambition of her life was gratified when her husband was elected a member of congress. Immediately after the result of the election was known the new congressman's wife drove in from her country home to the county seat to call in triumph on her dearest enemies in a social way. She called first on the wife of the local banker, who had sent her three daughters through Vassar, and after receiving the congratulations of the family she turned the conversation to her plans for the future of her own daughter, Jennie.

"I am going to give Jennie every educational advantage," she said. "As soon as the congressman and I get to Washington we are going to put Jennie in the Smithsonian institute."

### HUMAN ALARM CLOCKS.

How Messenger Boys Are Utilized as Awakers in New York.

At 1 o'clock the other morning a well dressed man strolled into one of the uptown messenger offices. He had been dining out and evidently, from the rakish tilt to his opera hat, the dinner had been a success.

"I want a messenger boy to come and waken me in the morning."

"What hour?" The clerk was all business, for the request was not unusual.

"Seven o'clock. I've got to catch a train."

"All right, sir; 7 o'clock," assured the clerk.

The man turned as he was going out of the door. "Have the boy hammer the door hard," he cautioned. "I'm a 'dead one' when I get to sleep, and I've got to catch that train." Then he went home and went to sleep with absolute confidence.

The whistles were blowing 7 o'clock. A small boy in uniform hammered with a club, his "wakener," on the door of the man who had dined the night before. "Get up, you old sleepyhead!"

"You go away from my door," comes in sleepy tones from the room. "It's a mistake. I don't want to get up."

"Oh, yes, you do, my dodo bird," is the fresh reply. And the tattoo on the door goes on with redoubled strength.

"All right, boy; I'm awake now!" howls the man who has been sleeping.

"Not till you've signed this receipt," the boy insists.

The man has to crawl out of bed and come to the door. The boy has a paper ready, and as he is a careful man he reads before signing. It certifies that he has been thoroughly wakened by Messenger No. 432 and that he is not going back to bed again that day.

"Is this a joke?" he asks the boy.

"Naw, 'tain't no joke," replied the messenger through his teeth. "If we didn't make you do this, you'd be down to de office about noon a-howlin' dat we didn't wake you'se. Now, if you've got back to your bag of feathers, we've got you'n in black an' white, an' no mistake!"—New York Tribune.
